[Electra Battery Materials Corp.](#) (NASDAQ: ELBM; TSX-V: ELBM) ("Electra" or the "Company") plans to undertake an overnight-marketed public offering of units of the Company (the "Units") on a "best efforts" basis led by Cantor Fitzgerald Canada Corporation. Each Unit is expected to consist of one common share in the capital of the Company (a "Common Share") and one full warrant to purchase one Common Share for a period of 36 months, at a price per Unit and final terms to be determined in the context of the market, for expected gross proceeds of up to approximately US\$8 million (~C\$11 million) (the "Equity Offering").

The Company has filed today a preliminary prospectus supplement (the "Prospectus Supplement") to its final short form base shelf prospectus dated November 26, 2020, as amended by amendment no. 1 dated November 30, 2021 (collectively, the "Base Shelf Prospectus") in connection with the Equity Offering. The Company intends to use the net proceeds of the Equity Offering for capital expenditures associated with the expansion and recommissioning of the Company's wholly-owned hydrometallurgical cobalt refinery, including buildings, equipment, infrastructure, and other direct costs, as well as engineering and project management costs.

The Equity Offering is expected to close on or about November 15, 2022, and is subject to customary closing conditions including the receipt of all necessary regulatory approvals, including the approval of the TSX Venture Exchange and notification to The Nasdaq Stock Market. There can be no assurance as to whether or when the Equity Offering may be completed, or as to the actual size or terms of the Equity Offering.
