• The Company continues to focus its efforts on optimizing the operation at both mines, stabilizing the Jiama Mine's production and potentially extending the mine life of the CSH Mine basing on the new underground gold resources anchored.

• The Company has been taking effective measures to prevent and control the COVID-19 pandemic. Both of the Company's mines have been able to operate and sell products during the nine months ended September 30, 2022. The Company continues to closely monitor the health of its employees and supply chains to be able to respond to any potential disruptions, should any arise. The Company is also managing its cash reserves to be able to withstand any financial ramifications of potential disruptions.

The Company's Chairman and CEO, Mr. Junhu Tong, said, "The mining industry is complex and ever-changing, and the market environment is extremely challenging in 2022. China Gold International Resources has made every effort to stabilize operation, strengthen management, and avoid risks, and has basically maintained stable production and performance in the first three quarters. The results achieved are hard to come by. In the future, the management team will continue to be committed to strategic development and operational optimization, consolidate the resource base, tap growth potential, promote the quality of the Company, and return shareholders with value creation."
