

First Helium Worsley Operations Update

23.11.2022 | [CNW](#)

TSXV: HELI OTCQX: FHELF FRA: 2MC

Company Completes Disposal Well Conversion

CALGARY, Nov. 23, 2022 - [First Helium Inc.](#) ("First Helium" or the "Company") (TSXV: HELI) (OTCQX: FHELF) (FRA: 2MC) today provided an update on operating activities at its Worsley property. The conversion of a previously abandoned well bore to a water disposal well, along with necessary equipment installation and modifications to its Worsley Oil Battery, has been successfully completed. The project, which was designed to reduce operating costs and enable optimized production at the Worsley Oil Battery, is ready to be put into operation pending final regulatory approval of the Company's water disposal scheme.

"In anticipation of the start-up of its water disposal operations, the Company has been producing its oil wells on a restricted basis to minimize operating costs and respond to current regional limitations to accessible disposal alternatives," said Ed Bereznicki, President & CEO of First Helium. "The completion and commissioning of the disposal project at Worsley will allow the Company to optimize production of its oil wells and result in a dramatic reduction of operating costs," added Mr. Bereznicki.

Earlier this year, the Company applied for and successfully received approval from the Alberta Energy Regulator to convert a previously abandoned well bore to a water disposal well. The Company performed the operation in its second quarter and is diligently working through the requisite regulatory process to receive final approval to commence operations and begin realizing the commercial benefits of the project. Management estimates that total operating costs will be reduced by over 50% at the Worsley Oil Battery upon start-up of the disposal operation.

ABOUT FIRST HELIUM

Led by a core Senior Executive Team with diverse and extensive backgrounds in Oil & Gas Exploration and Operations, Mining, Finance, and Capital Markets, First Helium seeks to be one of the leading independent providers of helium gas in North America.

Building on its successful 15-25 helium discovery well at the Worsley project, the Company has identified numerous follow-up drill locations and acquired an expansive infrastructure system to facilitate future exploration and development of helium across its Worsley land base. Cash flow from its successful oil wells at Worsley will help support First Helium's ongoing helium exploration and development growth strategy.

First Helium holds over 60,000 acres along the highly prospective Worsley Trend in Northern Alberta, and 276,000 acres in the Southern Alberta Helium Fairway, near existing helium production. In addition to continuing its ongoing exploration and development drilling at Worsley, the Company has identified a number of high impact helium exploration targets on the prospective Southern Alberta Helium Fairway lands to set up a second core exploration growth area for the Company.

FORWARD-LOOKING AND CAUTIONARY STATEMENTS

This news release contains certain statements or disclosures relating to First Helium that are based on the expectations of its management as well as assumptions made by and information currently available to First Helium which may constitute forward-looking statements or information ("forward-looking statements") under applicable securities laws. All such statements and disclosures, other than those of historical fact, which address activities, events, outcomes, results, or developments that First Helium anticipates or expects may or will occur in the future (in whole or in part) should be considered forward-looking statements. In some cases, forward-looking statements can be identified by the use of the words "expect", "will" and similar expressions. In particular, but without limiting the foregoing, this news release contains forward-looking statements pertaining to the timing and nature of future activities on the 15-25, 14-23, and the water disposal well; facilities development; seismic acquisition; the entering into of off-take marketing arrangements; the use of funds and the Company's strategy. The forward-looking statements contained in this news release reflect several material factors and expectations and assumptions of First Helium including, without limitation: that First Helium will continue to conduct its operations in a manner consistent with past operations; the general continuance of current or, where applicable, assumed industry conditions; availability of debt and/or equity sources to fund First Helium's capital and operating requirements as needed; and certain cost assumptions.

Forward-looking statements are based on estimates and opinions of management at the date the statements are made and are subject to risks, uncertainties and assumptions, including those set out in the Final Prospectus dated June 28, 2021 and filed under the Company's profile on SEDAR at www.sedar.com. Readers are cautioned that actual results may vary materially from the forward-looking statements made in this news release. Risks that could cause actual events or results to differ materially from those projected in forward-looking statements include, but are not limited to, risks associated with the oil and gas industry; the ability of First Helium to fund the capital and operating expenses necessary to achieve its business objectives; the impact of the COVID-19 pandemic on the business and operations of First Helium; the state of financial markets; increased costs and physical risks relating to climate change; loss of key employees and those risks described in the Final Prospectus dated June 28, 2021. First Helium does not undertake any obligation to update forward looking statements, except as required by applicable securities laws. Investors should not place undue reliance on forward-looking statements.
