

Global Energy Metals Hosts Webinar to Provide Company Update Highlighting Recent Milestones and Upcoming Catalysts

25.11.2022 | [The Newswire](#)

Vancouver, November 25, 2022 - [Global Energy Metals Corp.](#) (TSXV:GEMC) | (OTC:GBLEF) | (FSE:5GE1) ("Global Energy Metals", the "Company" and/or "GEMC"), a company involved in the investment exposure to the battery metals supply chain, is pleased to announce that the Company, in collaboration with Amvest Capital, will host a webinar on Monday November 28th at 4:05pm ET / 1:05pm PT.

Recent Milestones:

- Assayed up to 36% Copper from sampling program at the Treasure Box project confirming copper-silver-gold mineralization within high-priority targets identified by Earthlabs.
- Entered binding agreement to sell its majority interest in the Werner Lake Cobalt Project to High-Tech Metals Ltd.
- Announced results of RC and diamond drilling assays received from partner funded exploration at Millennium with high-grade Copper-Cobalt continuing at depth.
- Mobilized field crew to ground truth new Cobalt, Copper, Nickel targets at the Lovelock and Treasure Box Projects.
- Identified new cobalt, copper, nickel targets at the Lovelock and Treasure Box Projects using Earthlabs' AI and Machine Learning technology.
- Filed technical report for Monument Peak Copper-Silver-Gold Project located in Idaho, USA.
- Intersected nickel, copper and cobalt mineralization with Phase One drilling at the Lovelock Mine Property in Nevada, USA.

In this live webinar with Graham Abbott, Global Energy's Corporate Communications lead, attendees will be provided with an update on recent milestones including field exploration work at the Lovelock and Treasure Box projects in Nevada, partner funded developments at the Millennium Cobalt-Copper project in Australia, and an overall update on anticipated catalysts at a time when fundamentals remain supported by growing metals demand driven by decarbonization and electrification.

This will be a live, interactive, online event where investors are invited to ask the company questions in real-time. If attendees are not able to join the event live on the day of the conference, an archived webcast will also be made available after the event.

Details to register for the webinar are below.

DATE: Monday November 28th, 2022
TIME: 1:05pm PDT / 4:05pm EDT
REGISTER FREE: The Amvest Capital - Global Energy Metals Webinar

The Amvest Capital webinar will be held on Monday November 28th at 4:05pm ET / 1:05pm PT. Global

Energy Metals invites individual and institutional investors, as well as advisors and analysts, to attend this real-time, interactive live webinar by registering [here](#).

Global Energy Metals is developing a strong, diversified portfolio of strategic battery mineral projects that are well positioned for further exploration and development at a time when there is renewed interest in the battery minerals sector as price fundamentals are realigning due to the much anticipated surge in demand and market growth that is supported by a global movement towards electric vehicle and new energy storage adoption.

Global Energy Metals' current portfolio of cobalt, copper and nickel project and equity based holdings is well exposed to this global transition towards a lower-carbon economy.

About Amvest Capital

Amvest Capital is a New York-based specialist investment management and corporate finance firm focused solely on the natural resources sector. You can learn more about Amvest Capital and its webinars at <https://www.amvestcapital.com/webinars>.

[Global Energy Metals Corp.](#)

(TSXV:GEMC | OTC:GBLEF | FSE:5GE1)

[Global Energy Metals Corp.](#) offers investment exposure to the growing rechargeable battery and electric vehicle market by building a diversified global portfolio of exploration and growth-stage battery mineral assets.

Global Energy Metals recognizes that the proliferation and growth of the electrified economy in the coming decades is underpinned by the availability of battery metals, including cobalt, nickel, copper, lithium and other raw materials. To be part of the solution and respond to this electrification movement, Global Energy has taken a 'consolidate, partner and invest' approach and in doing so have assembled and are advancing a portfolio of strategically significant investments in battery metal resources.

As demonstrated with our current copper, nickel and cobalt projects in Canada, Australia, Norway and the United States, we're investing-in, exploring and developing prospective, scaleable assets in established mining and processing jurisdictions in close proximity to end-use markets. We're targeting projects with low logistics and processing risks, so that they can be fast tracked to enter the supply chain in this cycle. We're also collaborating with industry peers to strengthen our exposure to these critical commodities and the associated technologies required for a cleaner future.

Securing exposure to these critical minerals powering the eMobility revolution is a generational investment opportunity. We believe the the time to be part of this electrification movement.

GEMC's operations could be significantly adversely affected by the effects of a widespread global outbreak of a contagious disease, including the recent outbreak of illness caused by COVID-19. It is not possible to accurately predict the impact COVID-19 will have on operations and the ability of others to meet their obligations, including uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected countries. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could further affect operations and the ability to finance its operations.

For more information on Global Energy and the risks and challenges of their businesses, investors should review the filings that are available at www.sedar.com.
