

Nortec Announces VTEM Survey Commencement at the Sturgeon Lake VMS Project, Ontario, Canada

06.02.2023 | [Newsfile](#)

Toronto, February 6, 2023 - [Nortec Minerals Corp.](#) (TSXV: NVT) ("Nortec" or the "Company") is pleased to announce a Versatile Time Electromagnetic ("VTEM") geophysical survey at the Sturgeon Lake VMS Project in Ontario has started and is expected to conclude later this month.

"An ongoing GIS targeting compilation has identified eleven (11) exploration target areas at the Sturgeon Lake VMS Project. The current VTEM survey is the first modern survey to be flown over the property, and will aid in targeting and prioritizing areas for a prospecting, mapping and the soil sampling program scheduled for H1 2023. These are important steps in systematically advancing the property as the combined information will define initial drill targets for the next phase of exploration," stated Derrick Weyrauch, Chairman.

Figure 1: Sturgeon Lake VMS - Detailed GIS Targeting Compilation. Magnetic background (ON RMI) and referenced target area information was sourced and interpreted from the public domain. Property outlined in black.

Information set forth in this press release may contain forward-looking statements. Forward-looking statements are statements that relate to future, not past events. In this context, forward-looking statements often address a company's expected future business and financial performance, and often contain words such as "anticipate", "believe", "plan", "estimate", "expect", and "intend", statements that an action or event "may", "might", "could", "should", or "will" be taken or occur, or other similar expressions. By their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements, or other future events, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, risks associated with project development; the need for additional financing; operational risks associated with mining and mineral processing; fluctuations in palladium and other commodity prices; title matters; environmental liability claims and insurance; reliance on key personnel; the absence of dividends; competition; dilution; the volatility of our common share price and volume; and tax consequences to Canadian and U.S. Shareholders. Forward-looking statements are made based on management's beliefs, estimates and opinions on the date that statements are made and the Company undertakes no obligation to update forward-looking statements if these beliefs, estimates and opinions or other circumstances should change. Investors are cautioned against attributing undue certainty to forward-looking statements.
