

Sienna Closes First Tranche of Private Placement

27.02.2023 | [Newsfile](#)

Vancouver, February 27, 2023 - [Sienna Resources Inc.](#) (TSXV: SIE) (OTC Pink: SNNAF) (FSE: A1XCQ0) ("Sienna" or the "Company") is pleased to announce that, further to its News Release dated February 21, 2023, it has completed the first tranche of its private placement (the "Offering"), pursuant to which it issued an aggregate of 47,870,000 units (each, a "Unit") at a price of \$0.05 per Unit for aggregate gross proceeds of \$2,393,500. Each Unit is comprised of one common share (each, a "Share") and one transferrable share purchase warrant (each, a "Warrant"). Each Warrant entitles the holder thereof to acquire one Share (each, a "Warrant Share") at a price of \$0.08 per Warrant Share until February 27, 2028.

The Company paid cash finder's fees of \$134,000 and issued 2,646,000 non transferrable share purchase warrants (the "Finder's Warrants") to certain finders as a finder's fee in connection with the Offering. Each Finder's Warrant entitles the holder thereof to acquire one Share (each, a "Finder's Warrant Share") at a price of \$0.08 per Finder's Warrant Share until February 27, 2025.

All securities issued in connection with the Offering are subject to a statutory hold period that expires on June 28, 2023.

The aggregate gross proceeds from the sale of the Offering are expected to be used towards drilling on current projects and general working capital. The Offering is subject to final approval of TSX Venture Exchange.

None of the securities issued have been registered under the United States Securities Act of 1933, as amended (the "1933 Act"), and none of them may be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the 1933 Act. This news release shall not constitute an offer to sell or a solicitation of an offer to buy nor shall there be any sale of the securities in any state where such offer, solicitation, or sale would be unlawful.

Any questions regarding this placement or any eligible person interested in more information, please contact President Jason Gigliotti directly at 604 646 6900 or info@siennaresources.com.

Jason Gigliotti, President of [Sienna Resources Inc.](#), states, "We are very pleased regarding the interest we are receiving regarding this placement. We will be able to move forward on multiple lithium projects as well as be in great position to look at additional accretive projects. Sienna is a large landholder in Clayton Valley, Nevada. The tiny Clayton Valley is home to the only producing lithium mine currently in production in North America."

Recently, the Bureau of Land Management (BLM) has given Sienna approval for up to 4 additional holes to be completed on the 100% owned Blue Clay Lithium Project in Clayton Valley, Nevada (See map below). On March 25, 2022, Sienna revealed a new lithium discovery on the 100% owned Blue Clay Lithium Project in Clayton Valley, Nevada. Lithium values as high as 1230 ppm Li were encountered. The Blue Clay Lithium Project consists of 150 contiguous claims totaling approximately 2,950 acres prospective for lithium right in the heart of the Clayton Valley in Nevada, which is currently home to the only producing lithium region in North America.

About Sienna Resources Inc.

Sienna is one of the larger landholders in Clayton Valley Nevada. Sienna's Clayton Valley projects include the Blue Clay Lithium Project, the Silver Peak South Project, and the Clayton Valley Deep Basin Lithium Project. The Clayton Valley is home to the only lithium production in North America, being Albemarle Corp's Silver Peak deposit. This project is also near Tesla Motors Inc.'s Gigafactory in Nevada. On March 18, 2021, Schlumberger New Energy Venture announced the development of a lithium extraction pilot plant through its new venture, NeoLith Energy in a strategic partnership with Pure Energy. The deployment of the pilot plant will be in Clayton Valley, Nevada, USA. The NeoLith Energy sustainable approach uses a differentiated direct lithium extraction (DLE) process to enable the production of high-purity, battery-grade lithium material while reducing the production time from over a year to weeks. Sienna also has the 'Marathon North Platinum-Palladium Property' in Northern Ontario directly bordering Generation Mining Marathon Deposit.
