

Barrick's Mali Operations Honoured by Government for Tax Citizenship

28.02.2023 | [GlobeNewswire](#)

BAMAKO, Feb. 28, 2023 - [Barrick Gold Corp.](#) (NYSE:GOLD)(TSX:ABX) - Barrick's Loulo-Gounkoto gold mining complex, as one of the largest taxpayer in Mali, has been formally thanked by the government for its role in enabling the tax department to achieve its revenue targets for 2022.

In a ceremony at Barrick's Bamako office, the country's director of large enterprises presented both Loulo and Gounkoto with certificates of recognition honouring what was described as their high level of tax citizenship and expressing the hope that this productive partnership between the mines and the government would continue.

Barrick, through its legacy company Randgold, has been operating in Mali for more than a quarter of a century and during that time has made a major contribution to the development of the country's economy and its mining industry.

Cautionary Statement on Forward-Looking Information

Certain information contained or incorporated by reference in this press release, including any information as to our strategy, projects, plans, or future financial or operating performance, constitutes "forward-looking statements". All statements, other than statements of historical fact, are forward-looking statements. The words "enable", "hope", "honour", "recognize", "develop" and similar expressions identify forward-looking statements. In particular, this press release contains forward-looking statements including, without limitation, with respect to Loulo-Gounkoto's productive partnership with the government of Mali and the Complex's potential to continue to make major contributions to the country's economy and mining industry.

Forward-looking statements are necessarily based upon a number of estimates and assumptions including material estimates and assumptions related to the factors set forth below that, while considered reasonable by the Company as at the date of this press release in light of management's experience and perception of current conditions and expected developments, are inherently subject to significant business, economic, and competitive uncertainties and contingencies. Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements, and undue reliance should not be placed on such statements and information. Such factors include, but are not limited to: fluctuations in the spot and forward price of gold, copper, or certain other commodities (such as diesel fuel, natural gas, and electricity); the speculative nature of mineral exploration and development; changes in mineral production performance, exploitation, and exploration successes; changes in national and local government legislation, taxation,

controls or regulations and/ or changes in the administration of laws, policies and practices, expropriation or nationalization of property and political or economic developments in the Mali and other jurisdictions in which the Company or its affiliates do or may carry on business in the future; risk of loss due to acts of war, terrorism, sabotage and civil disturbances; risks associated with new diseases, epidemics and pandemics, including the effects and potential effects of the global Covid-19 pandemic; litigation and legal and administrative proceedings; employee relations including loss of key employees; increased costs and physical risks, including extreme weather events and resource shortages, related to climate change; and availability and increased costs associated with mining inputs and labor. In addition, there are risks and hazards associated with the business of mineral exploration, development and mining, including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins, flooding and gold bullion, copper cathode or gold or copper concentrate losses (and the risk of inadequate insurance, or inability to obtain insurance, to cover these risks).

Many of these uncertainties and contingencies can affect our actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, us. Readers are cautioned that forward-looking statements are not guarantees of future performance. All of the forward-looking statements made in this press release are qualified by these cautionary statements. Specific reference is made to the most recent Form 40-F/Annual Information Form on file with the SEC and Canadian provincial securities regulatory authorities for a more detailed discussion of some of the factors underlying forward-looking statements and the risks that may affect Barrick's ability to achieve the expectations set forth in the forward-looking statements contained in this press release.

Barrick disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except as required by applicable law.
