

# Brigadier Appoints McGuinty Senior Technical Advisor

04.04.2023 | [ACCESS Newswire](#)

VANCOUVER, April 4, 2023 - [Brigadier Gold Ltd.](#) (the "Company") (TSXV:BRG)(FSE:B7LM)(OTC PINK:BGADF) is pleased to announce that it has appointed Mr. Bill McGuinty P.Geol. as Senior Technical Advisor for exploration and development of the Company's Nemaska2 Lithium Property, James Bay, Quebec.

Bill McGuinty has worked in Canada and internationally for exploration companies since 1981, holding progressive positions as project geologist, exploration manager and country manager. He has served as Vice-President Exploration in South and Central America for [Intrepid Mines Ltd.](#), in Canada with [Queenston Mining Inc.](#) in the Kirkland Lake Gold camp and with [Eastmain Resources Inc.](#) in the James Bay region of Quebec. He is currently Vice President Exploration for [Big Ridge Gold Corp.](#) and works as a consultant for several exploration stage clients. His work experience spans all aspects of exploration management through to completion of feasibility studies and completion of environmental impact statements. He is fluent in English, French and Spanish and is a registered Professional Geoscientist in the provinces of Ontario, Quebec and Newfoundland. Mr. McGuinty graduated from the University of Ottawa, Canada with a B.Sc. (hons.) degree in geology.

"We are thrilled to have Bill McGuinty join the Brigadier team", stated Robert Birmingham, President of Brigadier Gold. "His strategic guidance will be invaluable as we initiate an exploration program on our Nemaska2 project, including the newly acquired property extension. Mr. McGuinty's experience and knowledge of the James Bay region will prove crucial in helping the Company endeavour into advancing our asset as we aim to unlock value in a Lithium rich area."

## About Nemaska2 Lithium Project

The Nemaska2 Project consists of 162 map-designated mining titles (Nemaska2 and Nemaska2 Extension) covering a total area of 8,300 hectares and is located in northern Québec, approximately 160 kms east of James Bay, near the community of Nemaska. Neighbouring Brigadier's Nemaska2 Project are claims held by Li-Ft Power, Brunswick Exploration, Dios Exploration, Critical Elements Lithium, and ~23 kilometres to the east lies Nemaska Lithium's Whabouchi Project.

The Nemaska2 section of the property hosts at least 20 white pegmatite outcrops, each approximately 1,000 square metres in size. The Quebec government carried out a large sampling program over Nemaska2 and the geological findings suggest these white pegmatites contain spodumene. More information can be found in the National Instrument 43-101 technical report filed by the Company under its SEDAR profile on March 14, 2023

Further exploration of the property has been recommended to identify possible additional pegmatite outcrops and spodumene occurrences. Available data from the Nemaska2 Extension property area will be compiled ahead of the Company's initial exploration program this summer.

## Qualified Person

Mr. Garry Clark, P. Geol., a member of the Company's Board of Directors, a "Qualified Person" under NI 43-101, has reviewed the technical contents of this news release and has approved the disclosure of the technical information contained herein.

#### Forward-Looking Information Cautionary Statement

This release includes certain statements and information that may constitute forward-looking information within the meaning of applicable Canadian securities laws. Forward-looking statements relate to future events or future performance and reflect the expectations or beliefs of management of the Company regarding future events. Generally, forward-looking statements and information can be identified by the use of forward-looking terminology such as "intends" or "anticipates", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "should", "would" or "occur". Forward-looking statements include those relating to initiation and completion of exploration and development programs. The Company cautions that all forward-looking statements are inherently uncertain, and that actual performance may be affected by a number of material factors, many of which are beyond the Company's control. Such factors include, among other things: risks and uncertainties relating to Company's ability to complete all payments and expenditures required under its mineral property option agreements; and other risks and uncertainties relating to the actual results of current exploration activities; the possibility that future exploration, development or mining results will not be consistent with adjacent properties and the Company's expectations; operational risks and hazards inherent with the business of mining (including environmental accidents and hazards, industrial accidents, equipment breakdown, unusual or unexpected geological or structural formations, cave-ins, flooding and severe weather); environmental and regulatory requirements; availability of permits, possibility of equipment breakdowns and delays, exploration cost overruns, availability of capital and financing, general economic, political risks, market or business conditions, regulatory changes, timeliness of government or regulatory approvals and other risks involved in the mineral exploration industry, and those risks set out in the filings on SEDAR made by the Company with securities regulators. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, other than as required by applicable securities legislation.

This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to U.S. persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.
