About Yara

Yara grows knowledge to responsibly feed the world and protect the planet. Supporting our vision of a world without hunger and a planet respected, we pursue a strategy of sustainable value growth, promoting nature-positive crop nutrition, and zero-emission energy solutions. Yara's ambition is focused on Growing a Nature-Positive Food Future that creates value for our customers, shareholders, and society at large and delivers a more sustainable food value chain.

To achieve our ambition, we have taken the lead in developing digital farming tools for precision farming, and work closely with partners throughout the food value chain to improve the efficiency and sustainability of food production. Through our focus on clean ammonia production, we aim to enable the hydrogen economy, driving a green transition of shipping, fertilizer production, and other energy-intensive industries.

Founded in 1905 to solve the emerging famine in Europe, Yara has established a unique position as the industry's only global crop nutrition company. We operate an integrated business model with around 17,500 employees and operations in 60 countries, with a proven track record of strong returns. In 2022, Yara

reported revenues of USD 24.1 billion.
