TORONTO, April 24, 2023 - [Nickel Creek Platinum Corp.](#) (TSX: NCP) ("Nickel Creek" or the "Company") is pleased to announce that it intends to raise capital by way of a non-brokered private placement for aggregate gross proceeds to the Company of up to approximately \$1.8 million (the "Private Placement"). The Private Placement will consist of the sale of units (the "Units") of the Company at a price of \$0.045 per Unit. Each Unit will consist of one common share of the capital of the Company (each, a "Common Share") and one-half of one common share purchase warrant (each whole common share purchase warrant, a "Warrant"), with each Warrant exercisable for one Common Share (each, a "Warrant Share") at an exercise price of \$0.08 for a period of three (3) years from the date of issuance, subject to adjustment upon certain customary events.

The net proceeds from the Private Placement will be used to fund the Company's completion of the Prefeasibility Study ("PFS"), ongoing permitting activities and holding costs at its 100%-owned Nickel Shäw Project, and for general corporate expenses and working capital purposes.

In connection with the Private Placement, the Company's largest shareholder, Electrum Strategic Opportunities Fund L.P. ("Electrum"), has indicated its intention to backstop up to \$1.25 million of the Private Placement, subject to customary conditions and otherwise on the same terms as the Private Placement.

Stuart Harshaw, President and Chief Executive Officer of Nickel Creek, commented: "Nickel Creek is fortunate to have the continued support of Electrum demonstrating the endorsement for the Company's plans going forward."

The closing of the Private Placement is expected to occur on or around May 15, 2023 and remains subject to the approval of the Toronto Stock Exchange and other customary closing conditions for a transaction of this nature. The Units will be issued on a private placement basis pursuant to exemptions from prospectus requirements under applicable securities laws. The Common Shares and the Warrants (and any Warrant Shares, as applicable) will be subject to a statutory hold period of four months and one day from the date of issuance of the Units.

Pursuant to Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions ("MI 61-101"), the Private Placement would constitute a "related party transaction" as Electrum (and certain other insiders of the Company) will subscribe for Units. These transactions will be exempt from the formal valuation and minority shareholder approval requirements of MI 61-101, as the fair market value of any Units subscribed for by insiders pursuant to the Private Placement will not exceed 25% of the Company's market capitalization.

This news release shall not constitute an offer to sell or the solicitation of an offer to buy the securities in the United States nor shall there be any sale of the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "1933 Act"), or any state securities laws and may not be offered or sold in the United States unless registered under the 1933 Act and any applicable securities laws of any state of the United States or an applicable exemption from the registration requirements is available.

About Nickel Creek Platinum Corp.

[Nickel Creek Platinum Corp.](#) (TSX: NCP) (OTCQB: NCPCF) is a Canadian mining exploration and

development company and its flagship asset is its 100%-owned Nickel Shāw Project. The Nickel Shāw Project is a large undeveloped nickel sulphide project in one of the most favourable jurisdictions in the world, with a unique mix of metals including copper, cobalt and platinum group metals. The Nickel Shāw Project has exceptional access to infrastructure, located three hours west of Whitehorse via the paved Alaska Highway, which further offers year-round access to deep-sea shipping ports in southern Alaska.

The Company is led by a management team with a proven track record of successful discovery, development, financing and operation of large-scale projects. Our vision is to create value for our shareholders by becoming a leading North American nickel, copper, cobalt and PGM producer.
