

JZR Gold Inc. Closes First Tranche of Non-Brokered Private Placement Offering of Units

27.04.2023 | [The Newswire](#)

[JZR Gold Inc.](#) (the "Company" or "JZR") (TSXV:JZR) is pleased to announce that, further to its news release dated April 21, 2023, it has closed the first tranche of its previously announced non-brokered private placement offering (the "Offering") of common shares (the "Shares") by issuing 875,000 units (the "Units") at a price of \$0.60 per Unit for gross proceeds of \$525,000. Each Unit is comprised of one common share (each, a "Share") and one share purchase warrant (each, a "Warrant"). Each Warrant shall entitle the holder to acquire one additional common share (a "Warrant Share") at a price of \$0.90 per Warrant Share for a period of 18 months after the date of issuance. The balance of the Offering is expected to close on or before May 30, 2023. The Units, Shares, Warrants and Warrants Shares are collectively referred to as the "Securities". The Offering is subject to approval of the TSX Venture Exchange. The Securities will be subject to a hold period of four months and one day from the date of issuance.

Insiders of the Company subscribed for a total of 500,000 Units under the Offering, which is a "related party transaction" within the meaning of Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Company has relied on the exemptions from the formal valuation and minority shareholder approval requirements of MI 61-101 contained in Sections 5.5(a) and 5.7(1)(a) of MI 61-101 in respect of any related party participation in the Offering, as neither the fair market value of the subject matter of, nor the fair market value of the consideration for, the transaction, insofar as it involved the related parties, exceeded 25% of the Company's market capitalization.

The Company intends to use the net proceeds of the Offering to fund operations of the fully constructed 800 tonne-per-day gravimetric mill, as well as future exploration work on the Vila Nova Gold project located in Amapa State, Brazil (the "Vila Nova Project"). The Company may fund operations on the Vila Nova Gold project by advancing funds, by way of one or more loans, to ECO Mining Oil & Gas Drilling and Exploration (EIRELI) ("ECO"), as operator of the Vila Nova Project. Net proceeds will also be used for general working capital purposes. The Company possesses a 50% net profit interest from all net profit generated from the Vila Nova Project.
