

Canadian North Resources Begins Trading on OTCQX Under the Symbol “CNRSF”

10.05.2023 | [GlobeNewswire](#)

TORONTO, May 10, 2023 - [Canadian North Resources Inc.](#) ("the Company," TSXV: CNRI; OTCQX: CNRSF; FSE: EO0 (E-O-zero)) is pleased to announce that the Company has qualified to trade on the OTCQX® Best Market and begins trading on OTCQX under the symbol "CNRSF". U.S. investors can find current financial disclosure and Real-Time Level 2 quotes for the Company on [www.otcmarkets.com](#).

Qualification for OTCQX requires the Company to meet high financial standards, follow best practice corporate governance and demonstrate compliance with applicable securities laws. The acceptance by OTCQX is a significant milestone for the Company, as it opens the opportunity for investment by institutional and retail investors in US, while increasing potential trading liquidity and market awareness for the company.

"We are excited to begin trading on the OTCQX Market, as it provides us with a platform to enhance our visibility and liquidity among U.S. investors," said Dr. Kaihui Yang, President and CEO of the Company. "This marks an important step forward for the Company as we continue to expand our reach and engage with investors in North America."

"The Company continues to focus on the exploration and development of critical minerals for the clean-energy, electric vehicles, battery and high-tech industries." Dr. Yang added. "We are currently expanding the mineral resources of critical metals from the current resource model for our Ferguson Lake nickel, copper, cobalt, palladium and platinum Project (Refer to "Independent Technical Report, Updated Mineral Resource Estimate, Ferguson Lake Project, Nunavut, Canada, Prepared by Ronacher McKenzie Geoscience Inc. and Francis Minerals Ltd " filed by the Company to Sedar.com on July 13, 2022), and the Company has planned a lithium-specific exploration program on the pegmatites over the Ferguson Lake property."

About OTC Markets Group Inc.

OTC Markets Group Inc. (OTCQX: OTCM) operates regulated markets for trading 12,000 U.S. and international securities. Its data-driven disclosure standards form the foundation of its three public markets: OTCQX® Best Market, OTCQB® Venture Market and Pink® Open Market.

The OTC Link® Alternative Trading Systems (ATs) provide critical market infrastructure that broker-dealers rely on to facilitate trading. Its innovative model offers companies more efficient access to the U.S. financial markets.

OTC Link ATS, OTC Link ECN and OTC Link NQB are each an SEC regulated ATS, operated by OTC Link LLC, a FINRA and SEC registered broker-dealer, member SIPC.

About Canadian North Resources

[Canadian North Resources Inc.](#) is an exploration and development company focusing on the critical metals for the clean-energy, electric vehicles, battery and high-tech industries. The company is advancing its 100%

owned Ferguson Lake nickel, copper, cobalt, palladium, and platinum project that covers an area of 253.8 km² of mining leases (96.9 km²) and surrounding exploration claims (156.9 km²) in the Kivalliq Region of Nunavut, Canada.

The Ferguson Lake mining property contains substantial resources in compliance with NI43-101 standards, which include Indicated Mineral Resources of 24.3 million tonnes containing 455 million pounds (Mlb) copper at 0.85%, 321Mlb nickel at 0.60%, 37.5Mlb cobalt at 0.07%, 1.08 million ounces (Moz) palladium at 1.38gpt and 0.18Moz platinum at 0.23gpt; Inferred Mineral Resources of 47.2 million tonnes containing 947Mlb copper at 0.91%, 551.5Mlb nickel at 0.53%, 62.4Mlb cobalt at 0.06%, 2.12Moz palladium at 1.4gpt and 0.38Moz platinum at 0.25gpt. The resource model indicates significant potential for resource expansion along strike and at depth over the 15 km long mineralized belt. (Refer to "Independent Technical Report, Updated Mineral Resource Estimate, Ferguson Lake Project, Nunavut, Canada, Prepared by Ronacher McKenzie Geoscience Inc. and Francis Minerals Ltd " filed by the Company to Sedar.com on July 13, 2022). In addition, the Company has identified the pegmatites with lithium potential at the Ferguson Lake project.

Cautionary Note Regarding Forward-Looking Statements

Certain statements contained in this news release, including statements which may contain words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or similar expressions, and statements related to matters which are not historical facts, are forward-looking information within the meaning of applicable securities laws. Such forward-looking statements, which reflect management's expectations regarding the Company's future growth, results of operations, performance, business prospects and opportunities, are based on certain factors and assumptions and involve known and unknown risks and uncertainties which may cause the actual results, performance, or achievements to be materially different from future results, performance, or achievements expressed or implied by such forward-looking statements.

These factors should be considered carefully, and readers should not place undue reliance on the Company's forward-looking statements. The Company believes that the expectations reflected in the forward-looking statements contained in this news release and the documents incorporated by reference herein are reasonable, but no assurance can be given that these expectations will prove to be correct. In addition, although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. The Company undertakes no obligation to release publicly any future revisions to forward-looking statements to reflect events or circumstances after the date of this news or to reflect the occurrence of unanticipated events, except as expressly required by law.
