

CanAsia Energy Corp. 2023 First Quarter Financial & Operating Results

10.05.2023 | [CNW](#)

CALGARY, May 10, 2023 - [CanAsia Energy Corp.](#) ("CanAsia" or the "Company") (TSXV: CEC) reports 2023 first quarter consolidated financial and operating results.

The Company is today filing its unaudited consolidated financial statements as at and for the three months ended March 31, 2023 and related management's discussion and analysis with Canadian securities regulatory authorities. Copies of these documents may be obtained online at www.sedar.com or the Company's website, www.canasiacorp.com.

Commenting today on CanAsia's 2023 first quarter results, President and CEO Jeff Chisholm stated: "The majority of obligations with regard to the earlier sale of [Pan Orient Energy Corp.](#) have now been fulfilled. Recent activities have been focused on long lead time environmental approvals/inspections at Sawn Lake and evaluating options for the upcoming onshore Thailand bid round that is anticipated to be announced in 2023."

HIGHLIGHTS

- CanAsia had working capital totaling \$3.1 million, no long-term debt and shareholders' equity of \$2.2 million at March 31, 2023.
- Common shares outstanding were 49.8 million at May 8, 2023 and March 31, 2023.
- Net loss attributable to common shareholders for the first quarter of 2023 was \$1.3 million (\$0.03 per share). Cash flow used in operations for the first quarter of 2023 was \$84 thousand (\$0.00 per share).
- General and administrative expense in the first quarter of 2023 was \$529 thousand, comprised primarily of expenses related to personnel and premises, external services, and public company costs.
- Personnel and salaries, and include rent and

- Company's sta
- Operating expenses in the first quarter of 2023 were \$90 thousand and were incurred to safeguard and maintain the assets of Andora Energy Corporation's ("Andora") suspended Steam Assisted Gravity Drainage

project facility and wellpair at Sawn Lake Central.

- The natural gas pipeline tariff agreement which was entered into between Andora and a third party in 2018 with a commencement date of May 1, 2023 is considered an onerous

contract as of March 31, 2023 under IAS 37. The Company has recognized a provision of \$0.9 million representing the net cost of fulfilling the contract.

- The current portion of the decommissioning provision of \$0.9 million as at March 31, 2023 relates to the legacy subsidiaries of Pan Orient Energy Holdings Ltd. ("POEH") which had held

interests in the East Jabung and Jambi Production Sharing Contracts in Indonesia. CanAsia is withdrawing from activities in Indonesia and decommissioning related costs are expensed when incurred. The non-current portion of the decommissioning provision of \$1.4 million as at March 31, 2023 pertained to Andora's interests in Sawn Lake, Alberta.

- In February 2023, Andora sold equipment to a third party for \$100 thousand. The net book value of the equipment was \$nil, resulting in a gain on sale of \$100

thousand.

- On February 28, 2023, the board of directors of Andora accepted a formal proposal made by CanAsia with respect to a transaction (the "Andora Transaction") whereby the outstanding shares of

Andora were consolidated (the "Consolidation") and all fractional shares resulting from the Consolidation were redeemed by Andora and cancelled, and the holders thereof would be entitled to receive a cash redemption payment of \$0.044 for each pre-Consolidation share of Andora. As part of the Andora Transaction all issued and outstanding options to acquire shares of Andora were surrendered for their "in-the-money" value.

- The Andora Transaction was approved by shareholders of Andora at a special meeting held on March 27, 2023. All other conditions to the Andora Transaction becoming effective were also satisfied

or waived, and the Andora Transaction was completed on March 27, 2023. As a result of the Andora Transaction, Andora now has 1 common share outstanding. CanAsia, which previously owned 88.2% of the outstanding shares of Andora as at December 31, 2022, now owns 100% of Andora. Non-controlling interest was reduced to \$nil on March 27, 2023, with a corresponding offset to deficit.

- Consideration paid for redeeming fractional shares pursuant to the Andora Transaction amounted to \$1.24 million. Andora paid former option holders a total of \$0.33 million, representing the "in-the-money" value of

all the options surrendered. Other expenses of the Andora Transaction totaled \$0.1 million.

OUTLOOK

The majority of obligations with regard to the earlier sale of [Pan Orient Energy Corp.](#) have now been fulfilled. Future activities will be focused on long lead time environmental approvals/inspections at Sawn Lake and participating in an onshore Thailand bid round that is anticipated to be announced in 2023.

COVID-19 and Ukraine Invasion

Events such as the Covid-19 pandemic and the invasion of Ukraine by Russian forces have resulted in significant disruption to business operations and a significant increase in economic uncertainty, with more volatile commodity prices, currency exchange rates and interest rates, and increasing rates of inflation. These events have led to a challenging economic climate in which it is difficult to reliably estimate the length or severity of these developments and their financial impact. These events and any potential resulting direct and indirect impact on the Company have been considered in management's estimates described above at the period end; however there could be a further prospective material impact in future periods.

Climate Change and Environmental, Social, and Governance ("ESG")

Climate change and ESG culture policies are evolving at regional, national and international levels. Political and economic events may significantly affect the scope and timing of ESG policies and climate change measures. The International Sustainability Standards Board has issued an IFRS Sustainability Disclosure Standard with the aim of developing sustainability disclosure standards that are globally consistent, comparable and reliable. In addition, the Canadian Securities Administrators have issued proposed National Instrument 51-107 Disclosure of Climate-related Matters.

The direct or indirect costs of compliance with greenhouse gas-related regulations and ESG directives may have an adverse effect on the Company's and its customers' businesses, financial condition, results of operations and prospects; however, at this time these costs have not yet been quantified.
