

Newmont Publishes 2022 Climate Report

25.05.2023 | [Business Wire](#)

Today, [Newmont Corp.](#) (NYSE: NEM, TSX: NGT) published its 2022 Climate Report, prepared in alignment with the Recommendations of the Task Force on Climate-related Financial Disclosures (TCFD). The report outlines how Newmont understands and is addressing climate change - from managing physical and transition climate risks and enhancing resiliency within our business, to climate impacts and reducing our greenhouse gas emissions.

"Climate change is one of the greatest global challenges of our time and its impact on our earth and our business is undeniable," said Newmont President and CEO Tom Palmer. "We believe that industries that create value - like mining - have a responsibility to drive bold actions and innovation to facilitate the transition to a low-carbon economy."

Highlights from the 2022 Climate Report include:

- Advancing renewable energy projects at Boddington and Tanami that have the potential to reduce emissions by up to one million tonnes of carbon dioxide equivalent;
- Progressing the Vision Zero program, our strategic alliance with Caterpillar, to trial zero emissions battery electric haul systems for surface and underground operations;
- Surveying and engaging key suppliers and customers to incorporate emission reduction targets or decarbonization commitments into contracts; and
- Partnering with the U.S. National Renewable Energy Laboratory on research related to carbon sequestration in mine tailings.

Newmont's Climate Report complements our recently published 2022 Sustainability Report and reinforces our commitment to provide stakeholders with a transparent and detailed look at our environmental, social and governance (ESG) performance and practices.

Cautionary Statement: This release and the climate report contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbor created by such sections and other applicable laws. Forward-looking statements may include, without limitation, expectations relating to emission reduction targets or potential, future achievement of decarbonization commitments, execution and implementation of renewable energy projects and future plans for mitigation of risks. Where a forward-looking statement expresses or implies an expectation or belief as to future events or results, such

expectation or belief is expressed in good faith and believed to have a reasonable basis. However, such statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied. Such statements are based upon numerous assumptions outlined in the climate report, which may prove to be incorrect. For a discussion of risks and other factors that might impact the Company's business, see the Company's Annual Report on Form 10-K for the year ended December 31, 2022 filed with the U.S. Securities and Exchange Commission (the "SEC"), under the heading "Risk Factors", available on the SEC website or www.newmont.com. The Company does not undertake any obligation to release publicly revisions to any forward-looking statement, to reflect events or circumstances after the date of this report, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.
