Detailed voting results for all matters considered at the Meeting will be available on SEDAR at www.sedar.com and on www.sec.gov/edgar.shtml.

RENEWAL OF ATM EQUITY PROGRAM

Sandstorm has re-established an at-the-market equity program (the "ATM Program") after the previous ATM Program of May 20, 2022, and following certain blackout periods pertaining to the Nomad Royalty Company and BaseCore Transa ATM Program allows the Company to issue up to US\$150 million (or the equivalent in Canadian dollars) of common sh ("Common Shares") from treasury to the public from time to time, at the Company's discretion and subject to regulatory requirements. Sandstorm's previous ATM Program expired with no shares being issued under the program, and the Conot currently have any plans to use the ATM Program.

Any Common Shares sold in the ATM Program will be sold by way of (i) ordinary brokers' transactions that meet the de "at-the-market offering" under the rules and regulations of the Securities and Exchange Commission (the "SEC") under Securities Act of 1933, as amended, (ii) ordinary brokers' transactions that constitute an "at-the-market distribution" as Part 9 of National Instrument 44-102 - Shelf Distributions, or (iii) such other sales of Common Shares by an Agent (as of herein) on behalf of the Company in its capacity as agent of the Company as shall be agreed by the Company and the Agent in writing, at market prices prevailing at the time of the sale or at prices related to the prevailing market prices or negotiated prices subject to certain minimum prices. Since the Common Shares will be distributed at the prevailing market time of the sale, prices may vary among purchasers and during the period of distribution.

02.12.2025 Seite 1/4

Sandstorm intends to use the net proceeds from the ATM Program, if any, to finance future gold and other metal purchase agreements and the purchase of royalties and/or for other general corporate purposes, including the repayment of indebtedness.

Sales of Common Shares through the ATM Program will be made pursuant to the terms of an equity distribution agreer June 9, 2023 entered into among the Company, BMO Nesbitt Burns Inc., Scotia Capital Inc., National Bank Financial Ir Capital Markets, RBC Dominion Securities Inc., and Raymond James Ltd. (the "Canadian Agents") and BMO Capital M Corp., Scotia Capital (USA) Inc., National Bank of Canada Financial Inc. and H.C. Wainwright & Co., LLC (the "US Age together with the Canadian Agents, the "Agents"). The ATM Program will be effective until the earliest of the date that a Shares available for issue under the ATM Program have been issued, October 22, 2024 or the ATM Program is terminal such date by the Company or the Agents.

The ATM Program is being established pursuant to a prospectus supplement dated June 9, 2023 to the Company's Ca shelf prospectus dated September 22, 2022 filed with the securities commissions in each of the provinces and territorie Canada, copies of which are available for free from SEDAR at www.sedar.com, and pursuant to a prospectus supplementation of the Company's U.S. base shelf prospectus dated September 22, 2022 included in its registration stater Form F-10 and filed with the SEC, copies of which are available for free via EDGAR on the SEC website at www.sec.go you invest, you should read these documents and all other documents the Company has filed with the Canadian security regulatory authorities and the SEC, as applicable, for more complete information about the Company and the ATM Program of the SEC with the Canadian security authorities and the SEC, as applicable, for more complete information about the Company and the ATM Program of the SEC with the Canadian security authorities and the SEC, as applicable, for more complete information about the Company and the ATM Program of the SEC with the Canadian security authorities are security as a specific program of the SEC, as a specific program of the SE

CAUTIONARY STATEMENTS TO U.S. SECURITYHOLDERS

02.12.2025 Seite 2/4

The financial information included or incorporated by reference in this press release or the documents referenced herein has been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, which differs from US generally accepted accounting principles ("US GAAP") in certain material respects, and thus are not directly comparable to financial statements prepared in accordance with US GAAP.

This press release and the documents incorporated by reference herein, as applicable, have been prepared in accorda Canadian standards for the reporting of mineral resource and mineral reserve estimates, which differ from the previous standards of the United States securities laws. In particular, and without limiting the generality of the foregoing, the term reserve", "proven mineral reserve", "probable mineral reserve", "inferred mineral resources,", "indicated mineral resource "measured mineral resources" and "mineral resources" used or referenced herein and the documents incorporated by reference, as applicable, are Canadian mineral disclosure terms as defined in accordance with Canadian National Instrum Standards of Disclosure for Mineral Projects ("NI 43-101") and the Canadian Institute of Mining, Metallurgy and Petrole "CIM") - CIM Definition Standards on Mineral Resources and Mineral Reserves, adopted by the CIM Council, as amend "CIM Definition Standards").

For United States reporting purposes, the United States Securities and Exchange Commission (the "SEC") has adopted amendments to its disclosure rules (the "SEC Modernization Rules") to modernize the mining property disclosure requires whose securities are registered with the SEC under the Exchange Act, which became effective February 25, 20 SEC Modernization Rules more closely align the SEC's disclosure requirements and policies for mining properties with industry and global regulatory practices and standards, including NI 43-101, and replace the historical property disclosure requirements for mining registrants that were included in SEC Industry Guide 7. Issuers were required to comply with the Modernization Rules in their first fiscal year beginning on or after January 1, 2021. As a foreign private issuer that is elignered to the SEC pursuant to the multi-jurisdictional disclosure system, the Corporation is not required to provide distinguished its mineral properties under the SEC Modernization Rules and will continue to provide disclosure under NI 43-101 and Definition Standards. Accordingly, mineral reserve and mineral resource information contained or incorporated by reference and the rules and regulations thereunder.

As a result of the adoption of the SEC Modernization Rules, the SEC now recognizes estimates of "measured mineral i "indicated mineral resources" and "inferred mineral resources." In addition, the SEC has amended its definitions of "pro reserves" and "probable mineral reserves" to be "substantially similar" to the corresponding CIM Definition Standards the required under NI 43-101. While the SEC will now recognize "measured mineral resources", "indicated mineral resourc "inferred mineral resources", U.S. investors should not assume that all or any part of the mineralization in these catego converted into a higher category of mineral resources or into mineral reserves without further work and analysis. Mineral described using these terms has a greater amount of uncertainty as to its existence and feasibility than mineralization t been characterized as reserves. Accordingly, U.S. investors are cautioned not to assume that all or any measured mine resources, indicated mineral resources, or inferred mineral resources that the Company reports are or will be economic legally mineable without further work and analysis. Further, "inferred mineral resources" have a greater amount of unce as to whether they can be mined legally or economically. Therefore, U.S. investors are also cautioned not to assume the part of inferred mineral resources will be upgraded to a higher category without further work and analysis. Under Canad securities laws, estimates of "inferred mineral resources" may not form the basis of feasibility or pre-feasibility studies, rare cases. While the above terms are "substantially similar" to CIM Definitions, there are differences in the definitions SEC Modernization Rules and the CIM Definition Standards. Accordingly, there is no assurance any mineral reserves of resources that the Company may report as "proven mineral reserves", "probable mineral reserves", "measured mineral "indicated mineral resources" and "inferred mineral resources" under NI 43-101 would be the same had the Company properties of the same had the same h reserve or resource estimates under the standards adopted under the SEC Modernization Rules or under the prior star SEC Industry Guide 7.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

This press release contains "forward-looking statements", within the meaning of the U.S. Securities Act of 1933, the U. Exchange Act of 1934, the Private Securities Litigation Reform Act of 1995 and "forward-looking information" within the applicable Canadian securities legislation, concerning the business, operations and financial performance and conditio Sandstorm Gold Royalties.
