Inflection Resources is systematically exploring for large copper-gold and gold deposits in the northern interpreted extension of the Macquarie Arc, part of the Lachlan Fold Belt in New South Wales. The Macquarie Arc is Australia's premier porphyry copper-gold province being host to Newcrest Mining's Cadia deposits, the CMOC Northparkes deposits and Evolution Mining's Cowal deposits plus numerous exploration prospects including Boda, the discovery made by Alkane Resources.

Alistair Waddell, Inflection's President and CEO, stated: *"The execution of this Agreement with AngloGold sets the foundation for the upcoming exploration program and provides the necessary capital to aggressively drill test and potentially develop our large portfolio of copper-gold porphyry targets within the northern extension of the Macquarie Arc. We very much look forward to working with our partners AngloGold to explore the portfolio of targets over the coming years."*

About InvestmentPitch Media

InvestmentPitch Media leverages the power of video, which together with its extensive distribution, positions a company's story ahead of the 1,000's of companies seeking awareness and funding from the financial community. The company specializes in producing short videos based on significant news releases, research reports and other content of interest to investors.
