

# Eagle Plains/Annacotty Resources Announce 2023 Field Program at the Donna Gold Property, South-central, BC

08.08.2023 | [ACCESS Newswire](#)

CRANBROOK, August 8, 2023 - Eagle Plains Resources (TSX-V:EPL)(OTC PINK:EGPLF), ("EPL") has been notified by option partner Annacotty Resources Corp. (a private B.C. company) ("Annacotty"), that field crews are being mobilized to Eagle Plains' 100% owned Donna Property (the "Property"). EPL currently holds a 100% interest (less an underlying NSR) in the 11,494 ha Property located approximately 70 km east of Vernon, BC. Under terms of the amended option agreement, Annacotty can earn its 60% interest by completing exploration expenditures of \$4,080,000, making cash payments of \$520,000 and issuing 1,300,000 common shares to EPL over a five-year period.

2023 fieldwork will be carried out by TerraLogic Exploration Services of Cranbrook BC and is planned to include:

- prospecting, soil sampling and geological mapping on the Big Link Zone, along trend from the historic St. Paul following up on coincident soil and airborne geophysical targets generated from previous work
- prospecting and mapping at the Yeo Link Zone where coincident airborne magnetic signature and historic silt sampling results suggest a buried, mineralized diorite intrusion

The Donna Property is road-accessible and located within rocks of the prolific Quesnellia Terrane, host to many major B.C. porphyry deposits such as Highland Valley, Gibraltar, Mount Polley, Mount Milligan, Copper Mountain and others. Despite the rich endowment of mineralization in these rocks, the Donna area has seen relatively little exploration activity by industry or government. Placer gold claims overlie many of the creeks draining the Donna Property. Management cautions that past results or discoveries on proximate land are not necessarily indicative of the results that may be achieved on the Donna property.

See Donna Project Summary Map [here](#)

The core claims of the Donna property were acquired in 2016 by Eagle Plains with additional tenures subsequently added through staking. Certain claims comprising the property are subject to an underlying 2% royalty held by an arms-length third party. The project area is located in the Monashee Mountains within the source headwaters of the historic Kettle River and Yeoward Creek placer gold camps. The claims lie within one of the largest clusters of anomalous values in gold and typical associated pathfinder elements identified in the British Columbia Regional Geochemical Surveys stream-sediment program carried out in the joint Federal - Provincial programs from 1985-1990.

The Donna property is underlain by a sequence of marine sediments comprising carbonaceous black argillite, limestone, and volcanic rocks of Permian to Lower Triassic age. Locally these rocks were intruded by stocks and plugs of mafic-intermediate composition. The project area is considered to hold good potential to host intrusive-related gold mineralization.

Since acquiring the property, Eagle Plains has carried out annual systematic exploration including airborne radiometric and magnetic surveys, prospecting, geological mapping, soil and silt geochemical sampling and 1152m (3779") of diamond drilling in 12 holes. The property boasts a robust GIS database consisting of rock, soil, silt, till, trench and drill-hole results within and adjacent the property area. In July, 2020, EPL completed the purchase of historical crown grants covering workings documented at the St. Paul and Morgan mines (BCMINFOLE 082LSE010), which include shafts, tunnels, winzes and an unknown number of open cuts and trenches, as well as a tramline and stamp mill that operated in the early 1900's.

Charles C. Downie, P.Geo., a "qualified person" for the purposes of National Instrument 43-101 - Standards

of Disclosure for Mineral Projects and a director of Eagle Plains, has prepared, reviewed, and approved the scientific and technical disclosure in the news release.

#### About Eagle Plains Resources

Based in Cranbrook, B.C., Eagle Plains is a well-funded, prolific project generator that continues to conduct research, acquire and explore mineral projects throughout western Canada. The Company was formed in 1992 and is the ninth-oldest listed issuer on the TSX-V (and one of only three that has not seen a roll-back or restructuring of its shares). Eagle Plains has continued to deliver shareholder value over the years and through numerous spin outs has transferred over \$100,000,000 in value directly to its shareholders, with Copper Canyon Resources and [Taiga Gold Corp.](#) being notable examples. Eagle Plains latest spinout, [Eagle Royalties Ltd.](#) (CSE:"ER") was listed on May 24, 2023, and holds a diverse portfolio of royalty assets throughout western Canada.

Eagle Plains' core business is acquiring grassroots critical- and precious-metal exploration properties. The Company is committed to steadily enhancing shareholder value by advancing our diverse portfolio of projects toward discovery through collaborative partnerships and development of a highly experienced technical team.

Expenditures from 2011-2022 on Eagle Plains-related projects exceed \$30M, the majority of which was funded by third-party partners. This exploration work resulted in approximately 45,000m of diamond-drilling and extensive ground-based exploration work facilitating the advancement of numerous projects at various stages of development.

Throughout the exploration process, our mission is to help maintain prosperous communities by exploring for and discovering resource opportunities while building lasting relationships through honest and respectful business practices.

On behalf of the Board of Directors

"Tim J. Termuende"  
President and CEO
