

E-Tech Resources Inc. Ramps up Exploration Activities and Engages Gecko Namibia and Flightec Namibia

16.10.2023 | [Newsfile](#)

Halifax, October 16, 2023 - [E-Tech Resources Inc.](#) (TSXV: REE) (FSE: K2I) ("E-Tech" or the "Company") is pleased to announce the engagement of Gecko Namibia (Pty) Ltd. ("Gecko") and Flightec Namibia ("Flightec") to support ongoing exploration and development activities on its 100% owned Eureka project.

E-Tech has evaluated the results of the current exploration program and is now expanding its activities to include a Phase 1 Ultra-high resolution UAV-borne magnetic survey. This survey is planned to be conducted by Flightec later this year.

E-Tech CEO, Todd Burlingame, says, "As E-Tech ramps up our exploration activities, we are increasing our capacity by engaging the services of Gecko and Flightec to assist in the advancement of the Eureka project. Gecko's technical strengths are complementary to our existing in-house expertise. Additionally, E-Tech's corporate vision and objectives align with Gecko's, namely to develop the resources of Namibia in an ethical, social, and environmentally responsible manner." Burlingame further states, "Engaging Flightec to conduct an Ultra-high resolution UAV-borne magnetic survey supports our commitment to use innovative and best in class technology to unlock the value of the Eureka project."

The results of the magnetic survey will be used to plan the 2024 exploration and drill programs across EPL 6762 and EPL 8748.

About E-Tech Resources Inc.

[E-Tech Resources Inc.](#) (TSXV: REE) (FSE: K2I) is a rare earths exploration company focused on developing its Eureka Rare Earths Project in Namibia. Namibia is recognized as one of Africa's most politically stable jurisdictions, with an extremely well-established national infrastructure and clear and transparent mining legislative and regulatory framework.

The Eureka project is located approximately 250 km north-west of Namibia's capital city Windhoek and 140 km east of Namibia's main industrial port Walvis Bay. The project is situated next to the national B1 highway in the Erongo Region of Namibia.

The Eureka project represents a district-scale swarm of subparallel carbonatite dykes with monazite mineralization. Initially, exploration drilling focused on the Central Eureka deposit only. Additional drilling is planned after interpretation of currently conducted soil geochemical surveys and additional geophysical surveys. The project includes Exclusive Prospecting License ("EPL") number 6762. E-Tech has also entered a definitive agreement to acquire an 85% interest in the permit EPL 8748, which lies adjacent to and surrounds the Company's EPL 6762.
