

Silver Elephant Announces 4,500-Tonnes of Paca's Silver Oxide Delivered to Andean Precious Metals Corp. in October

07.11.2023 | [Newsfile](#)

Vancouver, November 7, 2023 - [Silver Elephant Mining Corp.](#) (TSX: ELEF) (OTCQX: SILEF) (FSE:1P2) ("Silver Elephant" or the "Company") is pleased to announce the Company has commenced mining Paca silver oxide materials ("Products") and trucking the Products to Andean Precious Metals Corp. (Andean). All Products are excavated from the Paca resources tabulated below.

Pursuant to the sales and purchase agreement entered between Silver Elephant and Andean on September 12, 2023, approximately 4,500 tonnes of the Products with an average grade of 252 g/t Ag have been delivered to Andean's processing facility in Potosi since mid October.

John Lee, Silver Elephant CEO comments: "The progress and activities at Paca demonstrated team effort and community support. Silver Elephant aims to grow and maintain local employment; in addition to contributing to government royalties in the months and years ahead."

In light of the successful early Phase 1 Paca project commissioning in October, the company is accelerating the time table of Phase 2 Paca sulphide development. The objective is to start mining Paca sulphide materials and truck them to one of several nearby milling plants that will produce lead-silver and zinc concentrates for sale in early 2024.

Paca project hosts high grade silver resource according to a technical report by Mercator Geological Services, dated effective October 13, 2020 titled "Mineral Resource Estimate Technical Report for the Pulacayo Project, Potosi Department Antonnio Quijarro Province Bolivia" (the "Technical Report").

Paca	Zone	Category	Tonnes	Ag g/t	Ag Moz	Zn%	Pb %
Phase 1 Oxide	In Pit	Indicated	800,000	231	5.9		
		Inferred	235,000	159	1.2		
Phase 2 Sulfide	In Pit	Indicated	1,810,000	256	14.9	1.22	1.22
		Inferred	190,000	338	2.1	0.61	0.98

Oxide resources are based on a Pit-constrained estimate using a 90 g/t Ag cutoff. Sulfide resources are based on a pit-constrained estimate using a 200 g/t Ag Eq cutoff. Ag Eq = Silver Equivalent (Recovered) = $(\text{Ag g/t} \times 89.2\%) + ((\text{Pb}\% \times (\text{US\$}0.95/\text{lb. Pb}/14.583 \text{ Troy oz./lb.}/\text{US\$}17 \text{ per Troy oz. Ag}) \times (10,000 \times 91.9\%)) + ((\text{Zn}\% \times (\text{US\$}1.16/\text{lb. Zn}/14.583 \text{ Troy oz./lb.}/\text{US\$}17 \text{ per Troy oz. Ag}) \times (10,000 \times 82.9\%)))$. Sulphide zone metal recoveries of 89.2% for Ag, 91.9% for Pb, and 82.9% for Zn were used in the Silver Equivalent (Recovered) equation and reflect metallurgical testing results disclosed previously for the Pulacayo Deposit. Matthew Harrington P. Geo. is the independent Qualified Person for the resource estimate.

The Technical Report was filed on October 26, 2020 and is available under the Company's profile on SEDAR+ at www.sedarplus.ca. This news release includes an estimate of mineral resources as disclosed in the Technical Report. Mineral resources that are not mineral reserves do not have demonstrated economic viability.

About Pulacayo-Paca

The Paca project is part of the Company's Pulacayo project with a total indicated resource of 106.7 million oz silver, 1.4 billion pounds of zinc and 690 million pounds of lead published in the Technical Report and tabulated below. Silver Elephant and its subsidiaries have spent over \$35 million on Pulacayo and Paca,

which is considered to be an advanced project with over 96,000 meters of drilling, and a historic feasibility study.

Combined Pulacayo and Paca Indicated Mineral Resources

	Tonnes	Ag g/t	Pb %	Zn %
Oxide	2,185,000	155		
Sulfide	45,855,000	65	0.69	1.37

Combined Indicated Mineral Resources includes Pulacayo pit-constrained and out-of-pit plus only Paca pit-constrained resources. Oxide resources use a 50 g/t Ag cutoff. Sulfide resources use a 100 g/t Ag Eq cutoff. Ag Eq = Silver Equivalent (Recovered) = $(\text{Ag g/t} \times 89.2\%) + ((\text{Pb}\% \times (\text{US\$0.95/lb. Pb}/14.583 \text{ Troy oz./lb.}/\text{US\$17 per Troy oz. Ag}) \times (10,000 \times 91.9\%)) + ((\text{Zn}\% \times (\text{US\$1.16/lb. Zn}/14.583 \text{ Troy oz./lb.}/\text{US\$17 per Troy oz. Ag}) \times (10,000 \times 82.9\%)))$. Sulphide zone metal recoveries of 89.2% for Ag, 91.9% for Pb, and 82.9% for Zn were used in the Silver Equivalent (Recovered) equation and reflect metallurgical testing results disclosed previously for the Pulacayo Deposit. Matthew Harrington P. Geo. is the independent Qualified Person for the resource estimate.

A subsidiary of Silver Elephant entered into a Mining Production Contract ("MPC") with Corporación Minera de Bolivia ("COMIBOL"), a branch of the Bolivian Ministry of Mining and Metallurgy on October 3, 2019. The MPC grants Company's subsidiary an exclusive right to develop and mine at the Pulacayo and Paca concessions for up to 30 years.

The Pulacayo Project is at the center of a major Bolivia silver mining district and is within 250 km driving distance to the San Cristobal mine, the Cerro Rico mine, Pan American's San Vicente mine, Eloro's Iska Iska project, and New Pacific's Silver Sands project.

Qualified Person

The technical contents of this news release have been prepared under the supervision of Bill Pincus, who is an independent consultant of the Company. Bill Pincus is a qualified person as defined by the guidelines of NI 43-101.

About Silver Elephant Mining Corp.

[Silver Elephant Mining Corp.](#) is an active silver mining and exploration company advancing its flagship Pulacayo silver project in Bolivia.

FORWARD-LOOKING INFORMATION

This news release contains "forward-looking information" and "forward-looking statements" (collectively, "forward-looking information") within the meaning of applicable securities laws. Forward-looking information is generally identifiable by use of the words "believes," "may," "plans," "will," "anticipates," "intends," "could",

"estimates", "expects", "forecasts", "projects" and similar expressions, and the negative of such expressions. Such forward-looking information, which reflects management's expectations regarding Silver Elephant's future growth, results of operations, performance, business prospects and opportunities, are based on certain factors and assumptions and involve known and unknown risks and uncertainties which may cause the actual results, performance, or achievements to be materially different from future results, performance, or achievements expressed or implied by such forward-looking information. Forward-looking information in this news release include the expected timing to complete Phase 1 and advance Phase 2 mining at the Project.

Forward-looking information involves significant risks and uncertainties, should not be read as a guarantee of future performance, events or results, and may not be indicative of whether such events or results will actually be achieved. A number of risks and other factors could cause actual results to differ materially from expected results discussed in the forward-looking information, including but not limited to: changes in operating plans; ability to secure sufficient financing to advance the Company's project; conditions impacting the Company's ability to mine at the Project, such as unfavourable weather conditions, development of a mine plan, maintaining existing permits and receiving any new permits required for the Project, and other conditions impacting mining generally; maintaining cordial business relations with strategic partners; risks inherent to mineral resource estimation, including uncertainty as to whether mineral resources will be further developed into mineral reserves; commodity price variation; and general market, industry and economic conditions. Additional risk factors are set out in the Company's latest annual and interim management's discussion and analysis and annual information form (AIF), available on SEDAR+ at www.sedarplus.ca.

Forward-looking information are based on reasonable assumptions by management as of the date of this news release, and there can be no assurance that actual results will be consistent with any forward-looking information included herein. Readers are cautioned that all forward- looking statements in this news release are made as of the date of this news release. The Company undertakes no obligation to update or revise any forward-looking information in this news release to reflect circumstances or events that occur after the date of this news release, except as required by applicable securities laws.
