About Mineral Mountain

Mineral Mountain, through its wholly owned subsidiary Mineral Mountain Resources (SD) Inc., began exploring in the Black Hills of South Dakota, USA in July 2012. The Company recognized that the Homestake Gold Trend was not well explored using modern technology and the potential of discovering another similar Homestake-style gold deposit with scale was above average. Since 2012, the Company has expended over \$13 million USD in systematic, "state of the art" exploration with a strong technical and highly experienced team largely focused on its 100%-owned Rochford Gold Project physically situated 26 kilometers south of the world's richest and largest orogenic gold deposits, the Homestake Mine.
