TORONTO, Nov. 20, 2023 - [Franco-Nevada Corp.](#) ("Franco-Nevada") (TSX: FNV) (NYSE: FNV) notes that its partner, [First Quantum Minerals Ltd.](#) ("First Quantum"), has issued an update reporting the following in respect of the Cobre Panama mine ("Cobre Panama"):

- First Quantum's subsidiary, Minera Panama S.A. ("MPSA"), has further ramped down operations at Cobre Panama to one remaining ore processing train
- Ongoing illegal blockades of small boats at the Punta Rincon port continue to prevent the delivery of supplies that are necessary to operate the on-site power plant. Without shipments arriving at the Punta Rincon port, MPSA expects to run out of supplies for the power plant during the week commencing November 20, 2023
- If the illegal actions continue to prevent the delivery of supplies necessary to operate the power plant, MPSA will ramp down the remaining processing train this week and temporarily halt production
- With respect to the unconstitutionality challenges of Law 406 that have been admitted by the Supreme Court of Panama, the Secretary General of the Supreme Court of Panama has stated that plenary sessions of the court will sit from November 24, 2023 and remain in session until a ruling is delivered in the shortest possible timeframe
- MPSA, in accordance with its contractual obligations to the Republic of Panama, made a tax and royalty payment on November 16, 2023 of \$567 million for the period from December 2021 to October 2023

For more detailed information, please refer to First Quantum's press release dated November 20, 2023.
