

Pegasus Resources Increases Private Placement Offerings

07.12.2023 | [ACCESS Newswire](#)

VANCOUVER, BC-December 07, 2023- [Pegasus Resources Inc.](#) (TSX.V: PEGA)(FRA:OQS2)(OTC PINK:SLTFF) (the "Company" or "Pegasus") is delighted to share that, in response to overwhelming interest, the Company has applied to increase the size of both the Non-Brokered Flow-Through Private Placement (NFT Offering) and the Non-Brokered Flow-Through Private Placement (FT Offering) initially disclosed on November 10, 2023 (the "Offerings").

(NFT Offering):

- Initial Offering: Up to 4,000,000 units (the "NFT Units") at a price of CDN\$0.16 per Unit.
- Revised Offering: Now extended to 5,000,000 NFT Units, aiming to raise aggregate gross proceeds of up to CDN\$800,000. Each NFT Unit consists of one common share of the Company and one share purchase warrant, entitling the holder to acquire an additional common share of the Company at a price of \$0.20 for a period of 24 months from the date of issuance.

(FT Offering):

- Initial Offering: Up to 5,000,000 units (the "FT Units") at a price of CDN\$0.20 per Unit.
- Expanded Offering: Now increased to 6,000,000 FT Units, with the goal of raising aggregate gross proceeds of up to CDN\$1,200,000. Each FT Unit consists of one common share of the Company that qualifies as a flow-through share (for purposes of the Income Tax Act (Canada)) and one non-flow-through share purchase warrant, entitling the holder to acquire an additional common share of the Company at a price of \$0.28 for a period of 24 months from the date of issuance.

The Company intends to use the gross proceeds of the FT Offering to incur "Canadian exploration expenses" and "flow-through critical mineral mining expenditures" as defined in the Income Tax Act (Canada) and proposed amendments thereto on its Saskatchewan Athabasca Basin properties to conduct a proposed 1,500M, 10-hole drill program in 2024. In addition, a ground program at the Mozzie Lake property will include rock sampling, prospecting, and geological mapping this spring/summer. The goal of this program will be to confirm historical data and possible rare earth potential.

Proceeds from the NFT Offering will be used for exploration of the Company's mineral properties as well as for general operation expenses.

The common shares, share purchase warrants and shares underlying the share purchase warrants from the FT Offering and the NFT Offering will be subject to a four-month-and-one-day statutory hold period from the date of issuance. Closing of the FT Offering and NFT Offering remains subject to the receipt of all regulatory approvals, including the approval of the TSX Venture Exchange ("TSXV"). The Company may pay finder's fees as permitted by TSXV and applicable securities laws.
