

# Alvopetro Announces Q4 2023 Dividend of US\$0.14 Per Share and Commencement of Caburé Unit Redetermination Process

18.12.2023 | [CNW](#)

CALGARY, Dec. 18, 2023 - [Alvopetro Energy Ltd.](#) (TSXV: ALV;) (OTCQX: ALVOF) announces our Q4 2023 dividend and an update on our Caburé Unit Redetermination process.

## Q4 2023 Dividend

Our Board of Directors has declared a quarterly dividend of US\$0.14 per common share, payable in cash on January 15, 2024, to shareholders of record at the close of business on December 29, 2023. This dividend is designated as an "eligible dividend" for Canadian income tax purposes.

Dividend payments to non-residents of Canada will be subject to withholding taxes at the Canadian statutory rate of 25%. Shareholders may be entitled to a reduced withholding tax rate under a tax treaty between their country of residence and Canada. For further information, see Alvopetro's website at <https://alvopetro.com/Dividends-Non-resident-Shareholders>.

## Caburé Redetermination Process

As previously disclosed, the Caburé natural gas discovery extends across two blocks owned by Alvopetro (Block 197 and 198) and two adjacent blocks owned by a third party (Blocks 211 and 212). Under Brazilian legislation, petroleum accumulations straddling two or more licensed blocks must undergo unitization (pooling) in order to promote efficient and fair exploration and development. In April 2018, Alvopetro and the adjacent resource owner finalized the terms of the Unit Operating Agreement ("UOA"), the unit development plan and all related agreements, with Alvopetro's initial working interest share of the unitized area (the "Unit") being 49.1% and Alvopetro's 50.9% partner being named initial operator. Under the terms of the UOA, the working interest split is subject to redeterminations. The first redetermination was to occur 18 months after Alvopetro commenced production allocations or on January 5, 2022. The first redetermination was deferred to include data up to October 31, 2023, and has now commenced.

Under the provisions of the UOA, the parties agreed that the redetermination would be evaluated by an independent expert (the "Expert"). Pursuant to the provisions of the UOA, where an Expert is engaged, the Expert's determination shall be made using what is commonly referred to as the "pendulum" method of dispute resolution. Under this method, the Expert is not required or permitted to provide their own interpretation, but is required to select the single Final Proposal (between the two partner's respective Final Proposals), which, in the Expert's opinion, provides the most technically justified result of the application of the relevant information and data and material provided to the Expert consistent with the UOA and all related documents.

The Expert has been engaged and the schedule estimates a final decision to be made near the end of the first quarter of 2024. The outcome of the Expert's decision and the resulting working interest to Alvopetro following the decision is uncertain. Based on proposals presented by each party, Alvopetro's working interest may be adjusted higher or lower and the resulting impact on Alvopetro's reserves and future cash flows may be material.
