

Quantum Energy Corporation Announces SEDAR+ Financial Reporting in Canada

09.01.2024 | [Business Wire](#)

Quantum Energy Corporation (OTCPINK: FLCX, QREE), ("Quantum"), a worldwide exclusive licensee and manufacturer of transformative Direct Energy Systems for the direct generation and distribution of electrical energy, owned by and for use of the consumer, today announced that it is now filing on SEDAR+, the new consolidated electronic public financial filing system in Canada.

"This is a major milestone for Quantum and is the next step in providing improved market access to our Canadian investors," said Dennis M. Danzik, president and executive chairman. "We have been in transition for the past year as we commercialize our products and implement our go-to-market strategy while integrating two companies. As such, the situation has been fluid, and we realize it has been a confusing time for many of our shareholders. As we move forward, we aim to improve our transparency and communications to help investors understand our new company structure, strategy, market opportunity and product portfolio. In the meantime, we appreciate our investors' patience and believe the Company is heading towards a bright future that will hopefully create significant shareholder value over time."

The SEDAR+ filing process allows Quantum to stay current on its financial and informational filings in Canada and with the Ontario, British Columbia and Alberta Securities Commissions.

About Quantum Energy Corporation

Quantum Energy is the worldwide exclusive licensee and manufacturer of transformative photonic, magnetic propulsion, capacitor and battery energy systems for directly generating and distributing electrical energy produced and used by the consumer. The Company's Direct Energy Systems are targeted at industrial, institutional, commercial, governmental, remote and residential installations.

Quantum's unique and patent-pending technologies combine the very best uses of photonic, magnetic and rare earth processing and manufacturing, turning the future from solar power to the new frontier of Photon Power. For more information, please visit https://qree.energy/photon_power.html

Forward-Looking Statements

In this press release, all statements that are not purely about historical facts, including, but not limited to, those in which we use the words "believe," "anticipate," "expect," "plan," "intend," "estimate," "target" and similar expressions, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. While these forward-looking statements represent our current judgment of what may happen in the future, actual results may differ materially from the results expressed or implied by these statements due to numerous important factors, including, but not limited to, those described in our most recent report on SEC Form 10-K (under the headings "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations"), which may be revised or supplemented in subsequent reports on SEC Forms 10-Q and 8-K. We are under no obligation and expressly disclaim any obligation to update the forward-looking statements in this press release, whether as a result of new information, future events or otherwise.
