The Company's flagship San Pietro IOCG Project in Chile is funded to support a resource delineation program through the recently announced option agreement (see News Release dated January 12, 2024). The proceeds of this Offering will provide funds for other early-stage exploration work in Argentina as well as the necessary funds for general working capital.

Certain insiders of the Company participated in the Private Placement for \$30,000 in Units. Such participation represents a related-party transaction under Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions ("MI 61-101"), but the transaction is exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as neither the fair market value of the subject matter of the transaction, nor the consideration paid, exceed 25% of the Company's market capitalization.

This Offering is subject to regulatory approval and all securities to be issued pursuant to the Offering are subject to a four-month hold period under applicable Canadian securities laws expiring on June 6, 2024. The proceeds of the Offering will be used for general working capital and exploration on its properties in Argentina.
