Enduro Metals Receives 5-Year Area Based Exploration Permit for the Newmont Lake Property

18.03.2024 | Newsfile

Kelowna, March 18, 2024 - Enduro Metals Corp. (TSXV: ENDR) (OTCQB: ENDMF) (FSE: SOG0) ("Enduro" or the "Company") is pleased to announce the BC Ministry of Mines, Energy and Low Carbon Innovation has approved a new 5-year Mines Act permit to continue to undertake mineral exploration activities at the Company's 100% owned Newmont Lake Property. The permit will be in effect for five (5) years with a provisional expiry date of March 31st 2029.

The Mines Act permit which has been issued to the Company is required to, inter alia, enable the construction of drill pads and helipads, undertake IP surveys, store fuel on the property and maintain the Company's exploration camp infrastructure. The permit was approved following consultation with the Tahltan Central Government and the Province of British Columbia.

Cole Evans, CEO, commented: "Project permitting and consent have been major topics within the political landscape of British Columbia over recent months, so we are delighted to have received the 5-year renewal of Newmont Lake's exploration permit. Not only will this permit allow for 100 new drill sites, but it is also a signal of support for our exploration activities in the Newmont Lake area.

I would like to express my gratitude to our team, and the continued support from our partners at the Tahltan Central Government and the Province of British Columbia for their collaborative efforts throughout the permitting process."

About Enduro Metals
Enduro Metals is an exploration company focused on its Newmont Lake Project; a total 688km^2 property located between Eskay Creek, Snip, and Galore Creek within the heart of British Columbia's Golden Triangle. Building on prior results, the Company's geological team have outlined multiple deposit environments of interest across the Newmont Lake Project including high-grade epithermal/skarn gold along the McLymont Fault, copper-gold alkalic porphyry mineralization at Burgundy, newly discovered copper-gold porphyry mineralization at North Toe, and a large 10km x 4km geochemical anomaly hosting various gold, silver, copper, zinc, nickel, cobalt, and lead mineralization along the newly discovered Chachi Corridor.

On Behalf of the Board of Directors,

Enduro Metals Corp.

"Cole Evans"

Chief Executive Officer
