Vancouver, April 8, 2024 - [Go Metals Corp.](#) (CSE: GOCO) ("Go Metals" and/or the "Company") announces staking of two claim blocks targeting critical metals 80 kilometres southeast of Chibougamau, Quebec in the Nitassinan of Mashteuiatsh.

Scott Sheldon, CEO of Go Metals states, "While our primary focus remains on advancing the HSP group of projects, this new greenfield project signals our commitment to exploration of critical metals in Quebec. The recent discovery by SOQUEM has shown the potential for magmatic Nickel-Copper systems in this underexplored region. The new Oriole claims follow similar magnetic features seen at the adjacent Cardinal project. The property is road accessible and close to existing infrastructure."
