

Ellis Martin Report: Power Nickel Inc.'s: Terry Lynch Discusses NISK Project and Large Copper and PGE Mineralization Find in Quebec Province

06.05.2024 | [ABN Newswire](#)

Malibu, CA, United States - Join MONEYTALK RADIO'S Ellis Martin for a conversation with Terry Lynch, CEO of [Power Nickel Inc.](#) (CVE:PNPN) (OTCMKTS:PNPNF). Power Nickel is a Canadian junior exploration company focusing on developing the high-grade Nisk project into Canada's first Carbon Neutral Nickel mine. The Nisk project is located in Quebec Province and is benefited by Generous tax credits that cover 50% of exploration costs, A Hydro-Quebec substation across the road supplying low-carbon inexpensive hydropower, a stable political environment with strong government and first nation partners. It's Located beside major highway and nearby town.

And there is Shallow mineral depth.

The NISK property comprises a significant land position (20 kilometers of strike length) with numerous high-grade intercepts. Power Nickel is focused on expanding the historical high-grade nickel-copper PGE mineralization with a series of drill programs designed to test the initial Nisk discovery zone and to explore the land package for adjacent potential Nickel deposits. We visit now with Mr. Lynch at the Energy Transition Metals Summit in Washington, DC.

About Power Nickel Inc.:

[Power Nickel Inc.](#) (CVE:PNPN) (OTCMKTS:PNPNF) (FRA:IVV) is a Canadian junior exploration company focusing on developing the High-Grade Nisk project into Canada's first Carbon Neutral Nickel mine.

On February 1, 2021, Power Nickel (then called Chilean Metals) completed the acquisition of its option to acquire up to 80% of the Nisk project from [Critical Elements Lithium Corp.](#) (CVE:CRE). Subsequently, Power Nickel has exercised its option to acquire 50% of the Nisk Project and delivered notice to Critical Elements that it intends to exercise its second option to bring its ownership to 80%. The last remaining commitment to exercise the option was the delivery of a NI-43-101 Technical report which has now occurred.

The Nisk property comprises a significant land position (20 kilometers of strike length) with numerous high-grade intercepts. Power Nickel is focused on expanding the historical high-grade nickel-copper PGE mineralization with a series of drill programs designed to test the initial Nisk discovery zone and to explore the land package for adjacent potential Nickel deposits.

In addition to the Nisk project, Power Nickel owns significant land packages in British Colombia and Chile. Power Nickel is expected to reorganize these assets in a related vehicle through a plan of arrangement.

Power Nickel announced on June 8, 2021, that an agreement had been made to complete the 100% acquisition of its Golden Ivan project in the heart of the Golden Triangle. The Golden Triangle has reported mineral resources (past production and current resources) in 130 million ounces of gold, 800 million ounces of silver, and 40 billion pounds of copper (Resource World). This property hosts two known mineral showings (gold ore and Magee) and a portion of the past-producing Silverado mine, reportedly exploited between 1921 and 1939. These mineral showings are Polymetallic veins containing quantities of silver, lead, zinc, plus/minus gold,

About The Ellis Martin Report:

The Ellis Martin Report (EMR) is an internet based radio program showcasing potentially undervalued companies to an audience of potential retail investors and fund managers that comprise our listening

audience. TEMR is broadcasted on the VoiceAmerica Business Channel and The Opportunity Radio Network. CEO and company interviews are paid for by those represented on the program.
