

# Kingsmen Resources Identifies New High Potential Targets

28.05.2024 | [Newsfile](#)

Vancouver, May 28, 2024 - [Kingsmen Resources Ltd.](#) (TSXV: KNG) (OTCQB: KNGRF) ("Kingsmen" or the "Company") announces the discovery of two new zones of mineralization not previously recognized, the Silvia and La Plata zones (SLP) (Figure 1) on its 100% owned Las Coloradas project, located in the Central Mexican silver belt, Chihuahua Mexico.

The Silvia and La Plata (SLP) zones are located on the 2,500 meter-long, NE-trending zone of structures. This trend lies to the north of the old Soledad mine and cross cuts the NW-trending Soledad and Soledad II structures/vein systems.

Follow-up exploration has shown that the Silvia zone is located at the intersection of the SLP and Soledad structures/vein systems. This structurally complex area is highly prospective for mineralization. The La Plata zone contains NE, NW and N-trending structures/veins. N-trending structures/vein systems are unusual and may, in part, be reflecting buried quartz porphyry (QP) intrusives.

The Las Coloradas project area of mineralization is on the southeast flank of a prominent aeromagnetic high interpreted to be a buried felsic intrusive body. The felsic intrusives associated with the La Plata and Silvia zones, the Soledad and Soledad II structures and other structures are likely linked to this body.

Scott Emerson, President commented: "As we continue our exploration, it is apparent that the project is increasing in size and scope. These two new areas are highly prospective for silver, gold, and copper and successful work programs will add substantially to the potential of the project."

About Las Coloradas

The 100% owned Las Coloradas Project (8.5 km<sup>2</sup> -3.3 sq miles) represents a consolidation of a historic mining district which covers numerous silver-gold-lead-zinc-copper mines previously exploited by ASARCO (American Smelting and Refining Company), the U.S. based subsidiary of Grupo Mexico.

Las Coloradas is in the Parral mining district of the Central Mexican Silver Belt, and is located approximately 30 kilometers southeast of the city of Hidalgo de Parral and 40 kilometers east of the San Francisco de Oro and Santa Barbara mining districts where several operating mines are located, such as La Prieta, Veta Colorada, Palmilla, Esmeralda, San Francisco del Oro and Santa Barbara. As well, new major mining projects are currently being explored in the district; Cordero ([Discovery Silver Corp.](#)), 35 kms north of Parral, and La Cigarra (Kootenay Silver Inc.), 35 kms northwest of Parral. ### Forward-Looking Statement:

All statements, trend analysis and other information contained in this press release about anticipated future events or results constitute forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "believe", "plan", "estimate", "expect" and "intend" and statements that an event or result "may", "will", "should", "could" or "might" occur or be achieved and other similar expressions. All statements, other than statements of historical fact, included herein, including, without limitation, statements regarding the completion of the acquisition of the Las Coloradas Project and receipt of regulatory approval, are forward-looking statements. Although Kingsmen believes that the expectations reflected in such forward-looking statements and/or information are reasonable, undue reliance should not be placed on forward-looking statements since Kingsmen can give no assurance that such expectations will prove to be correct. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements, including the risks, uncertainties and other factors identified in Kingsmen's periodic filings with Canadian securities regulators, and assumptions made with regard to: Kingsmen's ability to make the required payments under the definitive agreements; and Kingsmen's ability to secure the necessary regulatory approvals. Forward-looking statements are subject to business and economic risks and uncertainties and other factors that could cause actual results of operations to differ materially from those contained in the forward-looking statements. Important factors that could cause actual results to differ materially from Kingsmen's expectations include risks associated with the business of Kingsmen; risks related to the satisfaction or waiver of certain conditions to the closing of the acquisition of the Las Coloradas Project; non-completion of the acquisition of the Las Coloradas Project; risks related to exploration and potential development of the Las Coloradas Project; business and economic conditions in the mining industry generally; fluctuations in commodity prices and currency exchange rates; uncertainties relating to interpretation of drill results and the geology, continuity and grade of mineral deposits; the need for cooperation of government agencies in the exploration and development of properties and the issuance of required permits; the need to obtain additional financing to develop properties and uncertainty as to the availability and terms of future financing; the possibility of delay in exploration or development programs and uncertainty of meeting anticipated program milestones; uncertainty as to timely availability of permits and other governmental approvals; and other risk factors as detailed from time to time and additional risks identified in Kingsmen's filings with Canadian securities regulators on SEDAR in Canada (available at [www.sedarplus.ca](http://www.sedarplus.ca)). Forward-looking statements are based on estimates and opinions of management at the date the statements are made. Kingsmen does not undertake any obligation to update forward looking statements except as required by applicable securities laws. Investors should not place undue reliance on forward-looking statements.
