

Tocvan Provides Update and Summary on Active Drill Program

28.05.2024 | [ACCESS Newswire](#)

Company to Provide Detailed Update at RMEC June 4

Highlights:

- Video Summary of Latest Drill Results: Drill Summary
- Program Ongoing, 20 Drillholes complete, over 2,200 meters Drilled to Date
- Results Pending
- RMEC Presentation on June 4th, 1:00 p.m. ET, sign up here:

RMEC SIGN UP

CALGARY, May 28, 2024 - [Tocvan Ventures Corp.](#) (the "Company") (CSE:TOC)(OTCQB:TCVNF)(FSE:TV3), is pleased to announce it will be presenting at the virtual Resource Mining & Exploration Conference ("RMEC") Tuesday, June 4, 2024, hosted by Sagacity Capital Media and Guerilla Capital.

CEO, Brodie Sutherland will provide an in-depth update on the Company at 1:00 p.m. ET, June 4, 2024. RMEC is an interactive experience for featured companies and investors. Companies will have 20 minutes to outline their investment opportunity before investors get the ability to engage in a real-time Q&A with management after the presentation. To register for RMEC, please click the link:

RMEC SIGN UP

About RMEC

RMEC (Resource Mining & Exploration Conference) is a unique virtual investor conference. The goal is to expose new investors, as well as our global network of retail and institutional investors, to vetted Exploration & Mining opportunities. The number of companies is limited, and the content is curated with investor time and interest being paramount. While not exhaustive by design, the RMEC aims to present potential investments to new and seasoned resource investors by presenting highlights for further research.

Each participating company hosts a live presentation followed by a Q&A period within approximately a 40-minute slot. The goal is to help investors learn about the junior companies that are shaping the future of the Global Resource Sector within a responsive and pressure free environment.

RMEC will present up to six junior exploration and near-term producing companies, as they seek to discover the next world class mines. Investors can get more detail about RMEC at www.rmeconferences.com.

Pilar Drill Program Update and Summary

The Company is also pleased to update on the ongoing drill program at its road accessible Pilar Gold-Silver project in mine-friendly Sonora, Mexico. To date, over 2,200 meters have been completed in 20 drillholes. Results for nine drillholes have been release so far. Two holes returned the best results ever outside of the Main Zone trend, returning 56.4 meters of 1.0 g/t Au and 42.7 meters of 1.0 g/t Au from the 4-T and North Hill trends respectively. Both intersects were near surface and significant step outs (over 300 meter). Results for six drillholes are pending analysis and release. Samples for ongoing holes are dropped off at the local

laboratory for analysis on a weekly basis.

Summary Video with CEO, Brodie Sutherland: Drill Summary

Figure 1. Summary map of latest drill and surface highlights.

Table 1. Summary of Top Ten Tocvan Drill Highlights, highlighted red are from 2024 program.

About the Pilar Property

The Pilar Gold-Silver property has returned some of the regions best drill results. Coupled with encouraging gold and silver recovery results from metallurgical test work, Pilar is primed to be a potential near-term producer. Pilar is interpreted as a structurally controlled low-sulphidation epithermal system hosted in andesite rocks. Initially three primary zones of mineralization were identified on the original property from historic surface work and drilling and are referred to as the Main Zone, North Hill and 4-T. Each trend remains open to the southeast and north and new parallel zones have been discovered. Structural features and zones of mineralization within the structures follow an overall NW-SE trend of mineralization. Mineralization extends along a 1.2-km trend, only half of that trend has been drill tested so far. The Company has now expanded its interest in the area by consolidating 22 square-kilometers of highly prospective ground where it has already made significant surface discoveries.

About Tocvan Ventures Corp.

Tocvan is a well-structured exploration and development company. Tocvan was created in order to take advantage of the prolonged downturn in the junior mining exploration sector, by identifying and negotiating interest in opportunities where management feels they can build upon previous success. Tocvan has approximately 51 million shares outstanding and is earning into two exciting opportunities in Sonora, Mexico. The Company has consolidated an attractive land position at its Pilar Gold-Silver Project where it holds 100% interests in over 21 square kilometers of prospective area and a majority ownership (51%) in a one square kilometer area shared with Colibri Resources. The Company also holds 100% interest in the Picacho Gold-Silver project in the Caborca Trend of northern Sonora, a trend host to some of the major gold deposits of the region. Management feels both projects represent tremendous opportunity to create shareholder value.

Pilar Drill Highlights:

2022 Phase III Diamond Drilling Highlights include (all lengths are drilled thicknesses):

- 116.9m @ 1.2 g/t Au, including 10.2m @ 12 g/t Au and 23 g/t Ag
- 108.9m @ 0.8 g/t Au, including 9.4m @ 7.6 g/t Au and 5 g/t Ag
- 63.4m @ 0.6 g/t Au and 11 g/t Ag, including 29.9m @ 0.9 g/t Au and 18 g/t Ag

2021 Phase II RC Drilling Highlights include (all lengths are drilled thicknesses):

- 39.7m @ 1.0 g/t Au, including 1.5m @ 14.6 g/t Au
- 47.7m @ 0.7 g/t Au including 3m @ 5.6 g/t Au and 22 g/t Ag
- 29m @ 0.7 g/t Au
- 35.1m @ 0.7 g/t Au

2020 Phase I RC Drilling Highlights include (all lengths are drilled thicknesses):

- 94.6m @ 1.6 g/t Au, including 9.2m @ 10.8 g/t Au and 38 g/t Ag;
- 41.2m @ 1.1 g/t Au, including 3.1m @ 6.0 g/t Au and 12 g/t Ag ;
- 24.4m @ 2.5 g/t Au and 73 g/t Ag, including 1.5m @ 33.4 g/t Au and 1,090 g/t Ag

15,000m of Historic Core & RC drilling. Highlights include:

- 21.0m @ 38.3 g/t Au and 38 g/t Ag
- 13.0m @ 9.6 g/t Au
- 9.0m @ 10.2 g/t Au and 46 g/t Ag
- 61.0m @ 0.8 g/t Au

Pilar Bulk Sample Summary:

- 62% Recovery of Gold Achieved Over 46-day Leaching Period
- Head Grade Calculated at 1.9 g/t Au and 7 g/t Ag; Extracted Grade Calculated at 1.2 g/t Au and 3 g/t Ag
- Bulk Sample Only Included Coarse Fraction of Material (+3/4" to +1/8")
- Fine Fraction (-1/8") Indicates Rapid Recovery with Agitated Leach
- Agitated Bottle Roll Test Returned Rapid and High Recovery Results: 80% Recovery of Gold and 94% Recovery of Silver after Rapid 24-hour Retention Time

Additional Metallurgical Studies:

- Gravity Recovery with Agitated Leach Results of Five Composite Samples Returned
- 95 to 99% Recovery of Gold
- 73 to 97% Recovery of Silver
- Includes the Recovery of 99% Au and 73% Ag from Drill Core Composite at 120-meter depth.

Quality Assurance / Quality Control

RC samples were shipped for sample preparation to ALS Limited in Hermosillo, Sonora, Mexico and for analysis at the ALS laboratory in North Vancouver. The ALS Hermosillo and North Vancouver facilities are ISO 9001 and ISO/IEC 17025 certified. Gold was analyzed using 50-gram nominal weight fire assay with atomic absorption spectroscopy finish. Over limits for gold (>10 g/t), were analyzed using fire assay with a gravimetric finish. Silver and other elements were analyzed using a four-acid digestion with an ICP finish. Over limit analyses for silver (>100 g/t) were re-assayed using an ore-grade four-acid digestion with ICP-AES finish. Control samples comprising certified reference samples and blank samples were systematically inserted into the sample stream and analyzed as part of the Company's robust quality assurance / quality control protocol.

Brodie A. Sutherland, CEO for [Tocvan Ventures Corp.](#) and a qualified person ("QP") as defined by Canadian National Instrument 43-101, has reviewed and approved the technical information contained in this release.

Cautionary Statement Regarding Forward Looking Statements

Neither the Canadian Securities Exchange nor its regulation services provider (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this release.

This news release contains "forward-looking information" which may include, but is not limited to, statements with respect to the activities, events or developments that the Company expects or anticipates will or may occur in the future. Forward-looking information in this news release includes statements regarding the use of proceeds from the Offering. Such forward-looking information is often, but not always, identified by the use of words and phrases such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or variations (including negative variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved.

These forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business. Management believes that these assumptions are reasonable. Forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include, among others, risks related to the speculative nature of the

Company's business, the Company's formative stage of development and the Company's financial position. Forward-looking statements contained herein are made as of the date of this news release and the Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results, except as may be required by applicable securities laws.

There can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information.
