- Fourth Sustainability Report

The Report presents the Corporation's progress and achievements across a range of environmental, social and governance ("ESG") practices and outlines the Corporation's commitments to stakeholders. This year's single report, which includes the Corporation's Task Force on Climate-related Financial Disclosures ("TCFD") disclosure, is TCFD- and GRI-compliant.

Benoit La Salle, President & CEO, commented, "I am very proud of our team's dedication toward progressing and embedding our ESG strategy which is outlined in this second TCFD-compliant report. Our growing maturity in sustainability is reflected by our 2023 focus on improving our corporate governance, prioritizing tailings management, suppliers' due diligence, human rights, transparency, and diversity, and formalized by our appointment of a Chief Sustainability Officer. We are at an exciting stage of our sustainability journey as we prepare to bring Zgounder expanded operations into commercial production and begin operation of a low-cost, global top 20 silver mine. The mine has already set new standards for responsible mining in the region, and its expansion will be transformational for us."
