

# Generation Uranium Engages APEX Geoscience Ltd. as Technical Consultants to Advance the Yath Uranium Project

13.06.2024 | [The Newswire](#)

[Generation Uranium Inc.](#) (the "Company" or "Generation"), (TSXV: GEN) (OTCQB: GENRF) is pleased to announce that it has signed a consulting agreement (the "Agreement") with APEX Geoscience Ltd. ("APEX") to provide geological consulting services with respect to the Yath Uranium Project ("Yath") located in Nunavut, Canada.

Based on the terms of the Agreement, APEX will complete all outstanding exploration authorization applications for an upcoming diamond drill program at Yath. This includes preparing application forms and supplemental documents for submission to the Nunavut Planning Commission, Nunavut Impact Review Board, and Kivalliq Inuit Association. APEX will also provide follow-up services for the exploration authorization application submission, which will include responding to public review comments, communicating with government agencies, and making necessary edits to the applications.

In addition, APEX will review previous exploration data at Yath and propose necessary ground preparations in advance of drill target selections for the anticipated diamond drill campaign.

Historic surface sampling by Pan Ocean Oil Ltd. in 1981 yielded uranium values of 9.81%, 3.95%, and 2.14% U<sub>3</sub>O<sub>8</sub> within surface float boulders. More recent field work by Kivalliq Energy between 2010-2012 returned 14 rock samples with U<sub>3</sub>O<sub>8</sub> values ranging from 1% to 5%, concentrated around fault lines and basin unconformities. Notable concentrations of high-grade samples aligning with regional fault lines, as corroborated by a 2012 seismic line indicating a VGR trend, affirm the findings from the 1970's and 1980's, underscoring the substantial uranium mineralization potential within the zone.

"We are thrilled to embark on this geology-based collaboration with APEX as we drive towards our diamond drilling program at Yath," stated Generation President and Chief Executive Officer, Anthony Zelen. "This partnership marks a significant milestone for our company, underscoring our commitment to innovative exploration and sustainable development. Together, we are poised to unlock the full potential of the Yath Uranium Project, setting the stage for a new era of prospective growth and discovery."

For additional information on Yath and other company assets, please visit our investor presentation and website.
