

# GT Resources Announces Completion of \$1.84 million Non-Brokered Private Placement and Mobilization of Exploration Drill Rigs for the Canalask Project

13.06.2024 | [Newsfile](#)

Toronto, June 13, 2024 - [GT Resources Inc.](#) (TSXV: GT) (OTCQB: CGTRF) (FSE: 7N1) (the "Company" or "GT Resources") is pleased to announce that, further to GT's news release dated May 15, 2024, it has completed a C\$1,840,000 non-brokered private placement financing (the "Private Placement").

Starting immediately, proceeds of the Private Placement are to be used for exploration diamond drilling at the Company's Canalask copper-nickel project in the Yukon.

The Company plans to drill up to 2,000 meters to test the Electromagnetic ("EM") Maxwell plate that was defined in the 2023 field season and to conduct additional downhole EM surveys to locate massive copper-nickel sulphide mineralization.

Locating the source of the historical footwall resource estimate (400,000 tonnes at 1.35% nickel) is the goal. Note, copper values were not reported in the historical resource estimate, but significant copper mineralization occurs on the property. Massive sulphide samples collected by the Company in 2021 from near the historic Footwall deposit assayed up to 6.1% Cu, 0.15% Ni, 0.06% Co, 1.6 g/t Au, 28.1 g/t Ag (see news release November 17, 2022).

Pursuant to the Private Placement, the Company issued 26,666,667 common shares in the capital of the Company ("Common Shares") that will qualify as "flow-through shares" (within the meaning of subsection 66(15) of the Income Tax Act (Canada)) (the "Flow-Through Shares") at a price of C\$0.069 per Flow-Through Share. The gross proceeds from the Private Placement will be used by the Company to incur eligible "Canadian exploration expenses" that qualify as "flow-through critical mineral mining expenditures" as both terms are defined in the Income Tax Act (Canada) (the "Qualifying Expenditures") on or before December 31, 2025 (or such other period as may be permissible under applicable tax legislation), and to renounce all the Qualifying Expenditures in favour of the subscribers of the Flow-Through Shares effective on or before December 31, 2024.

The Common Shares issued pursuant to the Private Placement are subject to a four-month hold period from the date of issuance in accordance with applicable securities laws. The Private Placement is subject to final acceptance of the TSX Venture Exchange. No commissions or finder fees are payable in connection with the Private Placement.

#### Notes for Editors

[Glencore plc](#) ("Glencore") is one of the world's largest global diversified natural resource companies and a major producer and marketer of more than 60 commodities that advance everyday life. Through a network of assets, customers and suppliers that spans the globe, we produce, process, recycle, source, market and distribute the commodities that support decarbonisation while meeting the energy needs of today.

With around 150,000 employees and contractors and a strong footprint in over 35 countries in both established and emerging regions for natural resources, our marketing and industrial activities are supported by a global network of more than 50 offices.

Glencore's customers are industrial consumers, such as those in the automotive, steel, power generation, battery manufacturing and oil sectors. We also provide financing, logistics and other services to producers and consumers of commodities.

Glencore is proud to be a member of the Voluntary Principles on Security and Human Rights and the International Council on Mining and Metals. We are an active participant in the Extractive Industries Transparency Initiative.

We will support the global effort to achieve the goals of the Paris Agreement through our efforts to decarbonise our own operational footprint. We believe that we should take a holistic approach and have considered our commitment through the lens of our global industrial emissions. Against a restated 2019 baseline, we are targeting to reduce our Scope 1, 2 and 3 industrial emissions by 15% by the end of 2026, 25% by the end of 2030, 50% by the end of 2035 and we have an ambition to achieve net zero industrial emissions by the end of 2050, subject to a supportive policy environment. For more information see our 2024-2026 Climate Action Transition Plan and the About our emissions calculation and reporting section in our 2023 Annual Report, available on our website at [glencore.com/publications](http://glencore.com/publications).
