

NuVista Receives TSX Approval for the Renewal of its Normal Course Issuer Bid

17.06.2024 | [GlobeNewswire](#)

CALGARY, June 17, 2024 - [NuVista Energy Ltd.](#) (TSX:NVA, "NuVista" or the "Corporation") announces that the Toronto Stock Exchange (the "TSX") has approved the renewal of the Corporation's normal course issuer bid (the "2024 NCIB").

Normal Course Issuer Bid Renewal

Pursuant to the 2024 NCIB, NuVista may purchase for cancellation, from time to time, as it considers advisable, up to a maximum of 14,234,451 common shares of the Corporation. The 2024 NCIB will become effective on June 19, 2024 and will terminate on June 18, 2025 or such earlier time as the 2024 NCIB is completed or terminated at the option of NuVista.

NuVista's intention to continue its share buyback program is consistent with its strategy to continue its disciplined growth concurrently with continuing with net debt reduction and the continuation of return of capital to shareholders. The Corporation continues to believe that the best method for return of capital to shareholders is initially to repurchase shares under a normal course issuer bid. However, the Corporation will re-evaluate the uses of its free adjusted funds flow through 2024 as its growth plans proceed. This evaluation will consider commodity prices, the economic and tax environment, share price and will include all options including continued disciplined growth to facility capacity, share repurchases, prudent targeted acquisitions or infrastructure purchases, and dividend payments.

The maximum number of common shares to be purchased pursuant to the 2024 NCIB represents 10% of the public float, as of June 5, 2024. Purchases pursuant to the 2024 NCIB will be made on the open market through the facilities of the TSX and/or Canadian alternative trading systems. The number of common shares that can be purchased pursuant to the 2024 NCIB is subject to a daily maximum of 102,004 common shares (which is equal to 25% of the average daily trading volume of 408,016 from December 1, 2023 to May 31, 2024) with the exception that one block purchase in excess of the daily maximum is permitted per calendar week. The price that NuVista will pay for any common shares under the 2024 NCIB will be the prevailing market price on the TSX at the time of such purchase. A copy of the Form 12 Notice of Intention to Make a Normal Course Issuer Bid filed by the Corporation with the TSX can be obtained from the Corporation upon request without charge. In addition, under the Corporation's current amended and restated credit facility (the "Credit Facility"), NuVista may not purchase common shares under the 2024 NCIB if: (i) the Corporation's proforma Senior Debt to EBITDA (each as defined in the Credit Facility) for the next twelve months exceeds a specified ratio; or (ii) NuVista's proforma drawings under the Credit Facility exceed a threshold dollar amount. Under the Corporation's current forecasts, NuVista expects to satisfy both conditions in the Credit Facility for the purchase of common shares under the 2024 NCIB.

NuVista has entered into an automatic share purchase plan ("ASPP") with a broker in order to facilitate repurchases of its common shares. Under the Corporation's ASPP, the broker may repurchase shares under the normal course issuer bid during the Corporation's self-imposed blackout periods. Purchases will be made by the broker based upon the parameters prescribed by the TSX and applicable securities laws and the terms of the plan and the parties' written agreement. Outside of these blackout periods, common shares may be purchased under the 2024 NCIB in accordance with management's discretion.

Under the previous normal course issuer bid (the "2023 NCIB"), NuVista repurchased 13,067,900 common shares at a weighted average price paid per share of \$12.21. The term of the previous NCIB has expired and no further shares may be purchased thereunder.

As of the close of business on June 5, 2024, the Corporation had 205,652,222 common shares issued and outstanding and a public float of 142,344,514 common shares. All common shares acquired under the 2024

NCIB will be cancelled.

About NuVista

NuVista is an oil and natural gas company actively engaged in the exploration for, and the development and production of, oil and natural gas reserves in the province of Alberta. NuVista's primary focus is on the scalable and repeatable condensate-rich Montney formation in the Pipestone and Wapiti areas of the Alberta Deep Basin. This play has the potential to create significant shareholder value due to the high-value condensate volumes associated with the natural gas production and the large scope of this resource play. The common shares of NuVista trade on the TSX under the symbol NVA. Learn more at www.nuvistaenergy.com
