The Company previously indicated that the original Offering, the terms of which can also be found in its news release of May 1, 2024, would be oversubscribed and is seeking additional time to accommodate and finalize the documentation and related required items for several additional interested investors. The second and final tranche of the Offering is now expected to close on or before June 27, 2024, and remains subject to final approval by the TSX Venture Exchange.

Each Warrant will entitle the holder to acquire one additional Class "A" Common share at an exercise price of CND \$0.075 for a period of 36 months following the close of the first tranche.

Proceeds from the offering will be used for the continued advancement of the Company's Krone-Endora at Venetia Project (the "Project"), the work programmes currently underway, the announced efforts surrounding drilling and bulk sampling on the greater portions of the Project, the advancement of discussions on potential acquisitions of additional opportunities aimed at increasing long-term shareholder value and added growth, and for general corporate purposes. The Company also plans to continue to advance ongoing discussions with financiers and industry related parties on additional funding scenarios which may be beneficial in further supporting the above noted objectives aimed at increasing long-term shareholder value and added growth.
