

Gungnir Resources Provides Exploration Update

21.06.2024 | [ACCESS Newswire](#)

SURREY, June 21, 2024 - [Gungnir Resources Inc.](#) (GUG:TSX-V)(ASWRF:TCPK) ("Gungnir" or the "Company") is pleased to provide an update on its current exploration activities in northern Sweden.

Initial prospecting, mapping and sampling commenced earlier this month on the Company's 29.4 km² Hemberget property which covers the northern portion of the Knaften structural dome offering potential for gold and base metals. At present, four zones/occurrences are known on the western and southern part of the dome, three of which were discovered by Gungnir. See news release dated January 24, 2024 for details on regional targets and accompanying map (see Figure 1).

Surface work is part of the Company's plan to increase exploration coverage across the Company's property portfolio in Sweden to potentially generate new targets while continuing to evaluate options for its nickel resources, including the Lappvattnet high-grade nickel project. The Company plans to rank all of its targets/projects and outline possible strategies moving forward.

To date, reconnaissance mapping has been completed at Hemberget including submission of thirty-three samples for geochemical analyses. Mapping and analytical results are pending.

The technical information in this news release has been prepared, verified and approved by Jari Paakki, P.Geol., CEO, and a director of the Company. Mr. Paakki is a Qualified Person under National Instrument 43-101.

About Gungnir Resources

Forward-Looking Information

Certain statements in this news release may constitute "forward-looking information" within the meaning of applicable securities laws (also known as forward-looking statements). Forward-looking information involves known and unknown risks, uncertainties and other factors, and may cause actual results, performance or achievements or industry results, to be materially different from any future results, performance or achievements or industry results expressed or implied by such forward-looking information. Forward-looking information generally can be identified by the use of terms and phrases such as "anticipate", "believe", "could", "estimate", "expect", "feel", "intend", "may", "plan", "predict", "project", "subject to", "will", "would", and similar terms and phrases, including references to assumptions. Some of the specific forward-looking information in this news release includes, but is not limited to, statements with respect to: timing of all planned exploration work; timing of target rankings, plans and possible strategies moving forward; and Gungnir's plan for development of its properties and the timing thereof.

Forward-looking information is based on a number of key expectations and assumptions made by Gungnir, including, without limitation: access to the projects will remain available; transportation and infrastructure will remain available as anticipated; the COVID-19 pandemic impact on the Canadian and global economy and Gungnir's business, and the extent and duration of such impact; no change to laws or regulations that negatively affect Gungnir's business; there will be a demand for Gungnir's services and products in the future; Gungnir will be able to operate its business as planned and extend certain licences; Gungnir will be able to access capital markets on and successfully complete financings on terms it determines to be reasonable; and Gungnir's plans for future exploration and development of its properties is reasonable and will be possible within the anticipated timelines. Although the forward-looking information contained in this news release is based upon what Gungnir believes to be reasonable assumptions, it cannot assure investors that actual results will be consistent with such information.

Forward-looking information is provided for the purpose of presenting information about management's current expectations and plans relating to the future and readers are cautioned that such statements may not be appropriate for other purposes. Forward-looking information involves significant risks and uncertainties and should not be read as a guarantee of future performance or results as actual results may differ materially from those expressed or implied in such forward-looking information. Those risks and uncertainties include, among other things, risks related to: no certainty that any economically viable mineral deposit or new targets will be located on Gungnir's properties; that Gungnir may not be able to complete its planned work as anticipated; the impacts of the COVID-19 pandemic; the impacts of war and/or other international conflicts; ability to access capital markets and complete successful financings on terms Gungnir determines to be reasonable; environmental matters; changes in legislation or regulations; receipt of required licences, permits and approvals; and resource estimates may not be accurate and may differ significantly from actual mineral resources. Management believes that the expectations reflected in the forward-looking information contained herein are based upon reasonable assumptions and information currently available; however, management can give no assurance that actual results will be consistent with such forward-looking information. The forward-looking information contained in this news release is expressly qualified in its entirety by this cautionary statement. Forward-looking information reflects management's current beliefs and is based on information currently available to Gungnir. The forward-looking information is stated as of the date of this news release and Gungnir assumes no obligation to update or revise such information to reflect new events or circumstances, except as may be required by applicable law.
