

Commodity super-cycle: Copper junior with gold and silver kicker chomping at the bits!

24.06.2024 | [DGAP](#)

Only recently, global asset manager Sprott explained that a new "super cycle" is beginning to form in the copper market. This is based on several geopolitical and market trends, which would lead to a "strongly bullish" outlook for the copper price. This is also in line with our observations. Which is why we are once again looking at an extremely promising copper company for our readers.

Canada's Prismo Metals (WKN A2QEED / CSE PRIZ) appears to be in an excellent position to potentially benefit threefold from the emerging commodity super-cycle. Its flagship copper project Hot Breccia is expected to receive its drill permits any day now and a drill program at the silver project Palos Verdes is planned to start, soon. Not to mention that Prismo owns an exciting gold project called Los Pavitos where initial drilling produced high-grade results, already!
