Calgary, July 4, 2024 - [Arrow Exploration Corp.](#) (AIM: AXL) (TSXV: AXL), the high-growth operator with a portfolio of assets across key Colombian hydrocarbon basins, announces the exercise of stock options, which were set to expire immediately, by certain Directors and Persons Discharging Managerial Responsibilities (PDMRs).

The options exercise was accepted by the Company on July 2, 2024 and holders elected to use a "cashless" exercise of options. Using this method, which is permissible under the terms of the Company's share option plan, the Company pays the option holder the value of the option (market price less strike price) from cash reserves. Accordingly, no new shares were issued for the option exercise.

About Arrow Exploration Corp.

Arrow Exploration Corp. (operating in Colombia via a branch of its 100% owned subsidiary Carrao Energy

S.A.) is a publicly traded company with a portfolio of premier Colombian oil assets that are underexploited, under-explored and offer high potential growth. The Company's business plan is to expand oil production from some of Colombia's most active basins, including the Llanos, Middle Magdalena Valley (MMV) and Putumayo Basin. The asset base is predominantly operated with high working interests, and the Brent-linked light oil pricing exposure combines with low royalties to yield attractive potential operating margins. Arrow's 50% interest in the Tapir Block is contingent on the assignment by Ecopetrol SA of such interest to Arrow. Arrow's seasoned team is led by a hands-on executive team supported by an experienced board. Arrow is listed on the AIM market of the London Stock Exchange and on TSX Venture Exchange under the symbol "AXL".
