About SRQ Resources Inc.

SRQ is a Canadian base metals company exploring for nickel, copper and platinum in the province of Québec.

A near-surface Ni-Cu project, Lac Brûlé is located on a 288 km² virgin exploration property at a five-hour drive from Montréal. The project's prospectivity for base metals has been confirmed by geological mapping, the presence of a surface gossan, and geophysical surveys. The presence of the historic Renzy Ni-Cu mine located 50 kilometers to the south-east and at the heart of the large regional pattern further adds to the area's mineral exploration appeal.
