

Global Energy Metals Corp. Announces Private Placement

16.07.2024 | [The Newswire](#)

Vancouver, July 16, 2024 - [Global Energy Metals Corp.](#) TSXV:GEMC | OTCQB:GBLEF | FSE:5GE1 ("Global Energy Metals", the "Company" and/or "GEMC"), a multi-jurisdictional, multi-commodity critical mineral exploration and development and project generating company focused on growth-oriented projects supporting the global transition to clean energy, announces that it intends to complete a best efforts non-brokered private placement financing of up to 16,666,667 units (each, a "Unit") at a price of \$0.03 per Unit for gross proceeds of up to \$500,000 (the "Offering"). Each Unit will consist of one common share of the Company and one-half of one transferable common share purchase warrant (each whole warrant, a "Warrant"). Each Warrant entitles the holder to acquire one additional common share of the Company at an exercise price of \$0.05 for a period of 24 months from issuance, subject to accelerated expiry as outlined below.

It is anticipated that Gleason & Sons LLC along with other insiders, directors and officers of Global Energy Metals will acquire Common Shares under the Offering. The subscription of Common Shares to insiders pursuant to the Offering is considered a related party transaction for the purposes of Multilateral Instrument 61-101 - Protection of Minority Shareholders in Special Transactions ("MI 61-101"). The Company intends to rely on exemptions from the formal valuation and minority shareholder approval requirements provided under sections 5.5(a) and 5.7(a) of MI 61-101 in respect of such insider participation, based on the determination that fair market value of the participation in the Offering by insiders will not exceed 25% of the market capitalization of Global Energy Metals, as determined in accordance with MI 61-101.

If on any 10 consecutive Trading Days occurring after four months and one day has elapsed from the Closing Date, the daily volume weighted average trading price of the common shares of the Company is at least \$0.10 per share, the Company may accelerate the expiry date of the Warrants to the 30th day after the date on which the Company gives notice to the Subscriber in accordance with the Warrant of such acceleration.

The Company anticipates closing of the Offering as soon as practicable and is subject to receipt of all necessary regulatory approvals including the TSX Venture Exchange. The Common Shares will be issued on a private placement basis pursuant to exemptions from prospectus requirements under applicable securities laws and will be subject to a statutory hold period of four months and one day from the date of issuance.

Finder's fees may be paid to eligible finders in accordance with the policies of the TSXV consisting of a cash commission equal to up to 8% of the gross proceeds raised under the Offering and finder warrants ("Finder Warrants") in an amount equal to up to 8% of the number of Units sold pursuant to the Offering. Each Finder Warrant will entitle the holder thereof to purchase one common share of the Company at a price of \$0.05 per share for a period of 24 months following the closing date of the Offering.

The Company intends to use the net proceeds of the Offering for general corporate purposes, exploration activities, and project holding costs. It is expected the majority of the proceeds will be used for general corporate purposes with no other specific use representing 10% or more of the gross proceeds of the Offering. None of the proceeds from the Offering will be used for payments to non-arm's length parties of the Company other than normal course compensation of its officers, directors, employees and consultants as part of general corporate purposes, or to persons conducting investor relations activities.

Global Energy Metals Corp. offers investment exposure to the growing rechargeable battery and electric vehicle market by building a diversified global portfolio of exploration and growth-stage battery mineral assets.

Global Energy Metals recognizes that the proliferation and growth of the electrified economy in the coming decades is underpinned by the availability of battery metals, including cobalt, nickel, copper, lithium and other raw materials. To be part of the solution and respond to this electrification movement, Global Energy Metals has taken a 'consolidate, partner and invest' approach and in doing so have assembled and are advancing a portfolio of strategically significant investments in battery metal resources.

As demonstrated with the Company's current copper, nickel and cobalt projects in Canada, Australia, Norway and the United States, GEMC is investing-in, exploring and developing prospective, scaleable assets in established mining and processing jurisdictions in close proximity to end-use markets. Global Energy Metals is targeting projects with low logistics and processing risks, so that they can be fast tracked to enter the supply chain in this cycle. The Company is also collaborating with industry peers to strengthen its exposure to these critical commodities and the associated technologies required for a cleaner future.

Securing exposure to these critical minerals powering the eMobility revolution is a generational investment opportunity. Global Energy Metals believes Now is the Time to be part of this electrification movement.

Cautionary Statement on Forward-Looking Information:

Certain information in this release may constitute forward-looking statements under applicable securities laws and necessarily involve risks associated with regulatory approvals and timelines. Although Global Energy Metals believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Except as required by law, the Company undertakes no obligation to update these forward-looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.

GEMC's operations could be significantly adversely affected by the effects of a widespread global outbreak of a contagious disease, including the recent outbreak of illness caused by COVID-19. It is not possible to accurately predict the impact COVID-19 will have on operations and the ability of others to meet their

obligations, including uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected countries. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could further affect operations and the ability to finance its operations.
