

Frost & Sullivan Institute Celebrates Leaders in Sustainability with 2024 Enlightened Growth Leadership Awards

18.07.2024 | [CNW](#)

SANTA CLARA, July 18, 2024 - The Frost & Sullivan Institute is excited to announce the winners of the 2024 Enlightened Growth Leadership Best Practices Recognition from the Americas (LATAM and North Americas). This prestigious accolade honors companies that have seamlessly integrated sustainable practices into their business models, setting new benchmarks for innovation and social responsibility. This year's awardees have demonstrated exceptional leadership in tackling challenges such as water conservation, promoting circular economy models, enhancing digital inclusion, and reducing GHG emissions. These exemplary organizations have successfully integrated business excellence with social and environmental responsibility, setting a benchmark for others to follow.

"The Enlightened Growth Leadership Awards celebrate companies that have transcended traditional business models to integrate sustainability at their core. These honorees exemplify how innovative thinking and responsible practices can drive both economic growth and social good. Their accomplishments set a powerful example, encouraging other organizations to strive for a balance between profitability and positive impact, ultimately leading to a more resilient and inclusive global economy," remarked Aroop Zutshi, Director of the Frost & Sullivan Institute.

The award selection process is a comprehensive and rigorous eight-step journey, blending expert evaluations, market research, and in-depth scrutiny of the nominees' innovative contributions. Based on metrics such as achieving growth excellence, pioneering 'innovating to zero' solutions aligned with global priorities, optimizing the customer value chain, and driving technological advancements, the awardees truly exemplify excellence in their fields.

The Frost & Sullivan Institute proudly congratulates all the winners of the 2024 Enlightened Growth Leadership Best Practices Recognition from the Americas. Their remarkable contributions will be celebrated at a prestigious awards ceremony hosted in collaboration with the Strategic Consortium of Intelligence People (SCIP) in Barcelona later this year. These companies serve as inspiring examples of how business success can be harmonized with the well-being of our planet and its people.
