

Mason Highlights Black Swan Graphene's Distribution and Sales Agreement

23.07.2024 | [Newsfile](#)

Toronto, July 23, 2024 - [Mason Resources Inc.](#) (TSXV: LLG) (OTCQX: MGPHF) ("Mason") highlights the Commercial Agreement between Black Swan Graphene Inc (TSXV: SWAN) (OTCQX: BSWGF) (FSE: R96) ("Black Swan" or the "Company"), of which Mason owns 39% and Broadway Colours Ltd. ("Broadway").

As part of the Agreement, Broadway will utilize Black Swan's graphene nanoplatelets (GNP) in the manufacture of their Graphene Enhanced Masterbatches ("GEMs"), bringing the remarkable benefits of graphene to their diverse customer base in plastic manufacturing. Both parties will leverage their commercial teams to advocate the benefits of GEMs in global markets, utilizing their research and development capabilities and application support. The Agreement includes provisions for joint marketing initiatives to promote the parties' revolutionary eco-friendly products.

About Broadway Colours Ltd.

Broadway is a renowned manufacturer of masterbatches, plastic compounds, and rotational moulding powders, with over 25 years of experience. The company is dedicated to providing high-quality, customized materials to meet the unique requirements of plastic moulders serving many market sectors across the UK and Europe.

About Black Swan Graphene Inc.

Black Swan is focused on the large-scale production and commercialization of patented high-performance and low-cost graphene products aimed at several industrial sectors, including concrete, polymers, Li-ion batteries, and others, which are expected to require large volumes of graphene. Black Swan aims to leverage the low cost and green hydroelectricity of the province of Quebec as well as the proximity of the province's emerging graphite industry in order to establish an integrated supply chain, reduce overall costs, and accelerate the deployment of graphene usage. On March 27, 2023, Black Swan, Concretene and Arup Group Ltd. ("Arup") announced strategic partnerships, establishing a fully integrated supply chain, and providing a turnkey solution for the construction and concrete industries. Arup is a multinational engineering consultancy headquartered in London, United Kingdom, with 18,000 experts working across 140 countries. Black Swan's graphene processing technology was developed by Thomas Swan & Co. Ltd. ("Thomas Swan") over the last decade. Thomas Swan is a United Kingdom-based global chemicals manufacturer, with a century-long track record and has been at the forefront of graphene innovation.

Forward-Looking Information

The information contained herein contains "forward-looking statements" or "forward-looking information" within the meaning of applicable securities legislation. Forward-looking statements or forward-looking information relate to information that is based on assumptions of management, forecasts of future results, and estimates of amounts not yet determinable. Any statements that express predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance are not statements of historical fact and may be "forward-looking statements" or "forward-looking information". Forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ from those reflected in the forward-looking statements, including, without limitation: risks related to Mason's holding of the NMG, Black Swan and NorthX Nickel shares, risks related to the development of NMG's projects, risks related to Black Swan's and NorthX Nickel's business, risk related to the failure to obtain adequate financing on a timely basis and on acceptable terms; risks related to the outcome of legal proceedings; political and regulatory risks associated with the industry; risks related to the maintenance of stock exchange listings; risks related to environmental regulation and liability; the potential for delays in development activities or the completion of feasibility studies; the uncertainty of profitability; risks related to the inherent uncertainty of production and cost estimates and the potential for unexpected costs and expenses; results of feasibility studies, and the possibility that future results will not be consistent with Mason's expectations; risks related to commodity prices fluctuations; and other risks and uncertainties related to Mason's prospects, properties and business detailed elsewhere in Mason's disclosure record. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements. Investors are cautioned against attributing undue certainty to forward-looking statements. These forward-looking statements are made as of the date hereof and Mason does not assume any obligation to update or revise them to reflect new events or circumstances, except in accordance with applicable securities laws. Actual events or results could differ materially from Mason's expectations or projections.
