In explaining why he joined Power Nickel, Dr. Beresford said "Polymetallic Ni-Cu-PGE deposits remain the premier depeven with the current Nickel price. These deposits are high-grade metal deposits where Cu and noble metals (PGE, Au equivalent value to Nickel, not just credit metals. Lion is prospective for between 11 and 15 metals. It's not academic not discriminate these systems from common garden Nickel deposits, it's economics. We continue to advance the Lion discriminate to working with the Power Nickel board during these exciting times."

In conjunction with the appointment and upon review of the Company's executive compensation, Power Nickel has awa 4,300,000 incentive stock options under the Company's stock option plan to directors and consultants at an exercise preper common share for terms of two to five years (depending on the particular grant).
