The Board will be seeking a suitable replacement for her position.

Wes Hanson, CEO, commented, "We have appreciated Bonnie Lyn's efforts and support, particularly regarding issues of ESG, which is her distinct area of expertise. We wish her great success in the development of her new business and thank her for her contribution to the Thunder Gold Board."

Bonnie Lyn de Bartok stated, "I have thoroughly enjoyed working with both management and the Board members of Thunder Gold. It makes sense for me to step off the Board at this time so I can concentrate my efforts on building out my new company. I wish the team at Thunder Gold tremendous success as they continue to develop their Tower Mountain project."

## About the Tower Mountain Gold Property

The 100%-owned Tower Mountain Gold Property is located adjacent to the Trans-Canada highway, approximately 50-km west of Thunder Bay, Ontario. The approximate 2,500-hectare property surrounds the largest, exposed, intrusive complex in the eastern Shebandowan Greenstone Belt where most known gold occurrences have been described as occurring either within, or proximal to, intrusive rocks. Gold at Tower Mountain is localized within extremely altered rocks parallel to the western contact of the intrusive center. Drilling has established anomalous gold extending out from the intrusive contact for over 500 metres along a 1,500-metre strike length, to depths of over 500 metres from surface. The remaining 75% of the perimeter surrounding the intrusion shows identical geology, alteration, and geophysical response, offering a compelling exploration opportunity.
