

New Destiny Mining Drilling Update: Hole 6 Intersects Copper Mineralization and Porphyry Dikes

21.08.2024 | [Newsfile](#)

Vancouver, August 21, 2024 - [New Destiny Mining Corp.](#) (TSXV: NED), (the "Company" or "NED") provides a further update on its 2024 exploration program at the Treasure Mountain project, near Princeton, BC.

Figure 1. Map showing trace of hole TMN24-06 drilled to test a 1km diameter regional magnetic anomaly

Drilling continues at the Treasure Mountain property with six holes completed so far for a total of 1060 meters cored. All the holes have been drilled in the Railroad area of copper-silver mineralization.

Figure 2. Color grid map of Cu ppm from Railroad 2015 soil survey, showing location of Hole TMN24-06 and planned location of hole 7

Hole 6 (TMN24-06) targeted a distinct magnetic anomaly revealed in regional survey data that is centered just north of the Railroad zone. The magnetic high anomaly measures about 1km in diameters and is interpreted to be caused by an intrusion at depth. The target is a possible mineralized porphyry intrusive that could be the feeder to the Railroad copper zone (Figure 1).

A mineralized zone was intersected from 19.33 to 26.93 (7.6 meters) characterized by disseminated, veinlet and breccia hosted chalcopyrite and pyrite (1-2% each). The mineralized zone lies adjacent to a 7.3 m interval of altered porphyry dike. The hole was drilled to a total depth of 429.3 meters and intersected multiple altered felsic porphyry dikes. A total of 24 intervals or 70.6 meters length (16% of the hole) consisted of altered felsic porphyry. The results confirm the presence of porphyry intrusive related to the magnetic anomaly.

Hole 6 also drilled beneath a copper soil anomaly that extends to the limit of a 2015 soil survey and includes values up to 730 ppm (Figure 2).

Hole 7 is being targeted at another area of anomalous copper in soils (values to 112 ppm copper) located southeast of the Railroad adits (Figure 2). In 2019, an attempt to trench this area was unsuccessful due to swampy ground, so the anomaly remained untested. Malachite copper mineralization is present in the road cut near the planned position of this hole.

The Treasure Mountain property covers 10,819 hectares and is located 38 km west of the Copper Mountain mine at Princeton in southern BC. Targets on the property include critical minerals in porphyry copper-moly deposits, and gold-quartz vein and polymetallic silver-rich vein deposits.

Map showing Treasure Mountain property and targets for 2024

Forward-Looking Information

This news release includes certain statements that constitute "forward-looking information" within the meaning of applicable securities law, including without limitation, the Company's information and statements regarding or inferring the future business, operations, financial performance, prospects, and other plans, intentions, expectations, estimates, and beliefs of the Company. Such statements include statements regarding the completion of the proposed transactions. Forward-looking statements address future events and conditions and are necessarily based upon a number of estimates and assumptions. These statements relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects" or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "estimates" or "intends", or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved), and variations of such words, and similar expressions are not statements of historical fact and may be forward-looking statements. Forward-looking statements are necessarily based upon several factors that, if untrue, could cause the actual results, performances or achievements of the Company to be materially different from future results, performances or achievements expressed or implied by such statements. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, including the price of gold and other metals, anticipated costs and the ability to achieve goals, and the Company will be able to obtain required licenses and permits. While such estimates and assumptions are considered reasonable by the management of the Company, they are inherently subject to significant business, economic, competitive and regulatory uncertainties and risks including that resource exploration and development is a speculative business; that environmental laws and regulations may become more onerous; that the Company may not be able to raise additional funds when necessary; fluctuating prices of metals; the possibility that future exploration, development or mining results will not be consistent with the Company's expectations; operating hazards and risks; and competition. There can be no assurance that economic resources will be discovered or developed. Accordingly, actual results may differ materially from those currently anticipated in such statements. Factors that could cause actual results to differ materially from those in forward-looking statements include continued availability of capital and financing and general economic, market or business conditions, the loss of key directors, employees, advisors or consultants, equipment failures, litigation, competition, fees charged by service providers and failure of counterparties to perform their contractual obligations. Investors are cautioned that forward-looking statements are not guarantees of future performance or events and, accordingly are cautioned not to put undue reliance on forward-looking statements due to the inherent uncertainty of such statements. The forward-looking statements included in this news release are made as of the date hereof and the Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by applicable securities legislation.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of

the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
