

Ximen Mining Drilling Commences at Brett Epithermal Gold Project - Vernon BC

22.08.2024 | [Newsfile](#)

Vancouver, August 22, 2024 - [Ximen Mining Corp.](#) (TSXV: XIM) (FSE: 1XM) (OTC Pink: XXMMF) (the "Company" or "Ximen") announces that it has completed mobilizing crews and equipment and is commencing the start of the 2024 drill program at its Brett epithermal gold project near Vernon in southern BC.

All equipment including a diamond drill, D6 Cat, Hitachi excavator and ancillary pumps and hoses have been mobilized to the Brett property and a temporary camp has been established. Access trails have been re-opened and the drill is being moved onto the site of the first drill hole for 2024. Field work, including prospecting and surveying activities are also underway.

The drill program is designed to extend the most prominent mineralized zone at the Brett, the Main Zone to the southeast and at depth, and to test for extensions to the New Discovery Zone (located east of the Main Zone). Drill holes were designed and ranked using parameters including gold soil anomalies, pathfinder element soil anomalies, resistivity, IP chargeability, magnetic anomalies, VLF anomaly, LiDAR lineaments, porphyry proximity, and high gold assay proximity.

The first drill hole is designed to confirm results of historic holes on the Main Zone and test a western zone of anomalous gold (see Figure 1)

The Brett project (20,043 hectares) covers low-sulfidation epithermal-style gold mineralization hosted in Eocene Penticton Group volcanic rocks. Epithermal-style gold mineralization was discovered in 1983, and a 291 tonne surface bulk sample was shipped to the smelter at Trail, BC in the 1990's that averaged 27.74 grams per tonne gold and 63.7 grams per tonne silver (Brett 2017 NI 43-101 report). Multiple zones of mineralization occur over a two kilometer strike, including both bulk-mineable and bonanza high grade styles. Ximen conducted LiDAR and airborne magnetic surveys over parts of the Brett property in 2022. Interpretation, 3D modeling and target refinement were then completed in preparation for the 2024 drilling program.

Ximen Mining Corp. owns 100% interest in three of its precious metal projects located in southern BC. Ximen's two Gold projects, The Amelia Gold Mine and The Brett Epithermal Gold Project. Ximen also owns the Treasure Mountain Silver Project adjacent to the past producing Huldra Silver Mine. Currently, the Treasure Mountain Silver Project is under an option agreement. The option partner is making annual staged cash and stocks payments as well as funding the development of the project. The company has also acquired control of the Kenville Gold mine near Nelson British Columbia which comes with surface and underground rights, buildings and equipment.

Ximen is a publicly listed company trading on the TSX Venture Exchange under the symbol XIM, in the USA under the symbol XXMMF, and in Frankfurt, Munich, and Berlin Stock Exchanges in Germany under the symbol 1XMA and WKN with the number as A2JBKL.

This press release contains certain "forward-looking statements" within the meaning of Canadian securities legislation, including statements regarding the receipt of TSX Venture Exchange approval and the exercise of the Option by Ximen. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are statements that are not historical facts; they are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "aims," "potential," "goal," "objective," "prospective," and similar expressions, or that events or conditions "will," "would," "may," "can," "could" or "should" occur, or are those statements, which, by their nature, refer to future events. The Company cautions that forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made and they involve a number of risks and uncertainties. Consequently, there can be no assurances that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Except to the extent required by applicable securities laws and the policies of the TSX Venture Exchange, the Company undertakes no obligation to update these forward-looking statements if management's beliefs, estimates or opinions, or other factors, should change. Factors that could cause future results to differ materially from those anticipated in these forward-looking statements include the possibility that the TSX Venture Exchange may not accept the proposed transaction in a timely manner, if at all. The reader is urged to refer to the Company's reports, publicly available through the Canadian Securities Administrators' System for Electronic Document Analysis and Retrieval (SEDAR) at www.sedarplus.ca for a more complete discussion of such risk factors and their potential effects.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of securities in any state in the United States in which such offer, solicitation or sale would be unlawful.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of

the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
