## Sandstorm Gold Royalties Provides Updates on Near-Term Development Portfolio

05.09.2024 | CNW

VANCOUVER, Sept. 5, 2024 - <u>Sandstorm Gold Ltd.</u> ("Sandstorm Gold Royalties", "Sandstorm" or the "Company") (NY (TSX: SSL) is pleased to provide updates from key development projects within its diversified portfolio of streaming and assets.

Greenstone Gold Mine Official Opening and Ramp-up

On August 29, Equinox Gold Corp. ("Equinox Gold") officially opened its 100% owned Greenstone mine in Geraldton, Comarking a significant milestone for the company. The event featured remarks from Indigenous partners, government of Equinox Gold's leadership. Greg Smith, the company's President & CEO, highlighted the importance of the Greenstone cornerstone asset, being one of Canada's largest and lowest-cost gold producers.

The Greenstone mine, which began construction in October 2021, poured first gold in May 2024 and is currently rampin commercial production. The mine produced approximately 2,625 ounces of gold in May, 13,625 ounces in June, and 19 ounces in July, with throughput exceeding 60% of its design capacity during the month of August.

For more information, visit Equinox Gold's website at www.equinoxgold.com and refer to the press release dated Augu

Sandstorm holds a gold stream on the Greenstone mine whereby the Company is entitled to purchase 2.375% of gold the mine until 120,333 ounces are delivered, and then 1.583% of gold produced thereafter. Sandstorm will make ongoi equal to 20% of the spot price of gold per ounce plus an additional payment of up to US\$30 per ounce in ESG contribu

Platreef Phase 1 Concentrator Complete; Advancing Toward 2025 Production

Ivanhoe Mines Ltd. ("Ivanhoe") provided an update on construction activities at its Platreef PGM mine in South Africa, i on-schedule completion of the Phase 1 concentrator, which entered cold commissioning in July. In-line with Platreef's development plan schedule, the concentrator will be placed on care and maintenance until the second half of 2025 as prioritizes waste hoisting to support and accelerate the development of Phase 2. An updated Feasibility Study for Phase Preliminary Economic Assessment for the Phase 3 expansion are underway and expected to be complete in the fourth 2024.

Construction of Shaft #2-critical for the Phase 3 expansion-is advancing well and headgear is approximately 60% comp of Shaft #2, which will be the largest on the African continent once complete, is expected to commence in the first quart The Phase 3 expansion aims to increase Platreef's processing capacity to 10 million tonnes per annum ("Mtpa"), making the largest and lowest-cost platinum-group metal, nickel, copper, and gold producers globally.

For more information, visit the Ivanhoe Mines website at www.ivanhoemines.com and see the press release dated July

Sandstorm holds a gold stream on the Platreef project whereby Sandstorm is entitled to purchase 37.5% of payable go from Platreef until 131,250 gold ounces have been delivered, then 30% of payable gold produced until an aggregate of ounces are delivered, then 1.875% thereafter if certain conditions are met. Sandstorm will make ongoing cash paymen US\$100 per ounce of gold until 256,980 ounces have been delivered, and then 80% of the spot price of gold for each of delivered thereafter.

Develop Global Secures Funding for Woodlawn Restart; Production on Track for 2025

Develop Global Limited ("Develop Global") has secured a US\$65 million prepayment/loan facility and offtake agreement

02.12.2025 Seite 1/4

commodities trader Trafigura Pte Ltd. for its Woodlawn copper-zinc mine in New South Wales, Australia. The facility, or Develop Global's existing cash reserves and cash from its mining services division, ensures that Woodlawn is fully functo production. The deal increases the project's net present value by 11% to A\$728 million and forecasts a pre-tax free of A\$1.1 billion over a 10-year mine plan. Develop Global is on track to make a final investment decision for the Woodlaw the third quarter of 2024, putting Woodlawn on track for first production and cash flows in mid-2025.

For more information, visit Develop Global's website at www.develop.com.au and see the press release dated August 2

Sandstorm has a silver stream on the Woodlawn project whereby the Company has the right to receive an amount of silver produced, to a maximum value of A\$27 million. In addition, the Company holds a second stream Woodlawn under which the operator has agreed to pay Sandstorm A\$1.0 million for each 1 million tonnes of tailings or at Woodlawn, subject to a cumulative cap of A\$10 million.

Construction Progress at Bayan Khundii Targets First Production in 2025

Erdene Resource Development Corp. ("Erdene") reported continued progress at the Bayan Khundii gold project located Mongolia. The company continues to make significant strides in the project's development, with construction having reapproximately 30% completion at the end of June 2024. The process plant, a critical path facility for the project, was neconstructed, with all major mechanical equipment now on-site. Construction has also begun on key non-process infrast including the overhead transmission line. As of August 2024, approximately US\$60 million has been invested in the project remains largely on schedule with first gold production anticipated in mid-2025.

Exploration efforts within the Khundii Minerals District have also yielded promising results, identifying several new gold across the Khundii and Zuun Mod licenses. Drilling is currently underway at Bayan Khundii to test targets west of the ewith the goal of expanding the Resource base and increasing confidence in the high-grade ore scheduled for mining in of production. The results of these exploratory activities are expected to be released in 2024.

For more information, visit Erdene's website and www.erdene.com and see the press release dated August 8, 2024. Sa has a 1.0% net smelter returns ("NSR") royalty on the Bayan Khundii project.

Allied Gold Secures Funding for Advancements at Côte d'Ivoire Assets

Allied Gold Corp. ("Allied Gold") announced the closing of US\$53 million in stream financing for advancement initiatives d'Ivoire Complex (CDI Complex), which includes the Bonikro and Agbaou gold mines. The stream financing will support advancement of highly prospective sites with Allied Gold allocating a total of US\$16.5 million in 2024 to advance high p targets such as Oume, Akissi-So, Agbalé, and others, which are located within Sandstorm's Bonikro stream claim. Allie expects to accelerate projects that aim to optimize operations, extend mine life, and increase asset value by unlocking upside potential.

For more information, visit Allied Gold's website at www.alliedgold.com and see the press releases dated August 7 and 2024.

In conjunction with Allied Gold's financing, Sandstorm amended its Bonikro gold stream such that the Company is entiti minimum annual deliveries of 4,000-6,000 ounces in the 2024-2026 period and 2,000-3,000 ounces in the 2027-2029 period ounce delivered. Sandstorm will make ongoing payments of gold produced at the mine until 39,000 ounces of gold between delivered, then 2% thereafter, the Annual Delivery Amount. Sandstorm will make ongoing payments of \$400 per gold ounce delivered.

## CAUTIONARY STATEMENTS TO U.S. SECURITYHOLDERS

The financial information included or incorporated by reference in this press release or the documents referenced herein prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standard, which differs from US generally accepted accounting principles ("US GAAP") in certain material respects, and the directly comparable to financial statements prepared in accordance with US GAAP.

This press release and the documents incorporated by reference herein, as applicable, have been prepared in accorda Canadian standards for the reporting of mineral resource and mineral reserve estimates, which differ from the previous standards of the United States securities laws. In particular, and without limiting the generality of the foregoing, the term reserve", "proven mineral reserve", "probable mineral reserve", "inferred mineral resources,", "indicated mineral resource "measured mineral resources" and "mineral resources" used or referenced herein and the documents incorporated by rherein, as applicable, are Canadian mineral disclosure terms as defined in accordance with Canadian National Instrum Standards of Disclosure for Mineral Projects ("NI 43-101") and the Canadian Institute of Mining, Metallurgy and Petrole "CIM") - CIM Definition Standards on Mineral Resources and Mineral Reserves, adopted by the CIM Council, as amend "CIM Definition Standards").

For United States reporting purposes, the United States Securities and Exchange Commission (the "SEC") has adopted amendments to its disclosure rules (the "SEC Modernization Rules") to modernize the mining property disclosure requires whose securities are registered with the SEC under the Exchange Act, which became effective February 25, 20 SEC Modernization Rules more closely align the SEC's disclosure requirements and policies for mining properties with industry and global regulatory practices and standards, including NI 43-101, and replace the historical property disclosure requirements for mining registrants that were included in SEC Industry Guide 7. Issuers were required to comply with the Modernization Rules in their first fiscal year beginning on or after January 1, 2021. As a foreign private issuer that is elignered to the SEC pursuant to the multi-jurisdictional disclosure system, the Corporation is not required to provide distinguished its mineral properties under the SEC Modernization Rules and will continue to provide disclosure under NI 43-101 and Definition Standards. Accordingly, mineral reserve and mineral resource information contained or incorporated by reference and the rules and regulations thereunder.

As a result of the adoption of the SEC Modernization Rules, the SEC now recognizes estimates of "measured mineral i "indicated mineral resources" and "inferred mineral resources." In addition, the SEC has amended its definitions of "pro reserves" and "probable mineral reserves" to be "substantially similar" to the corresponding CIM Definition Standards the required under NI 43-101. While the SEC will now recognize "measured mineral resources", "indicated mineral resources", "inferred mineral resources", U.S. investors should not assume that all or any part of the mineralization in these catego converted into a higher category of mineral resources or into mineral reserves without further work and analysis. Mineral described using these terms has a greater amount of uncertainty as to its existence and feasibility than mineralization t been characterized as reserves. Accordingly, U.S. investors are cautioned not to assume that all or any measured mine resources, indicated mineral resources, or inferred mineral resources that the Company reports are or will be economic legally mineable without further work and analysis. Further, "inferred mineral resources" have a greater amount of unce as to whether they can be mined legally or economically. Therefore, U.S. investors are also cautioned not to assume the part of inferred mineral resources will be upgraded to a higher category without further work and analysis. Under Canad securities laws, estimates of "inferred mineral resources" may not form the basis of feasibility or pre-feasibility studies, rare cases. While the above terms are "substantially similar" to CIM Definitions, there are differences in the definitions SEC Modernization Rules and the CIM Definition Standards. Accordingly, there is no assurance any mineral reserves of resources that the Company may report as "proven mineral reserves", "probable mineral reserves", "measured mineral indicated mineral resources" and "inferred mineral resources" under NI 43-101 would be the same had the Company reserve or resource estimates under the standards adopted under the SEC Modernization Rules or under the prior star SEC Industry Guide 7.

## CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION
