

SLAM Exploration Ltd. Raises \$490,503 In Flow-Through Private Placement

19.09.2024 | [The Newswire](#)

[SLAM Exploration Ltd.](#) (TSXV: SXL) ("SLAM" or the "Company") announces closing of its non-brokered flow-through private placement announced August 16, 2024 and September 13, 2024. In connection with the private placement, the Company has issued 16,350,101 Flow Through Units ("FT Units") at a price of \$0.03 per FT Unit for gross proceeds of \$490,503.03. Each FT Unit will be comprised of one common share of the Company issued on a "flow-through" basis and one-half common share purchase warrant (with two such half common share purchase warrants being each a "Warrant") issued on a "non-flow-through" basis. Each Warrant will entitle the holder thereof to acquire one non-flow-through common share at a price of \$0.05 for a period of 24 months from the date of closing.

The FT Units are subject to a four-month and one day hold period that expires on January 20, 2025.

The Company has paid finders' fees totalling \$13,005 and it issued a total of 433,499 non-transferable common share purchase warrants (the "Finder's Warrants") in connection with the Private Placement. Each Finder's Warrant will entitle the holder thereof to acquire one non-flow-through common share at a price of \$0.05 for a period of 24 months from the date of closing.

Proceeds received from the FT Units will be used to fund exploration on SLAM's copper and nickel projects in New Brunswick, Canada. The FT Units will qualify for the 30% Critical Mineral Exploration Tax Credit ("CMETC") in addition to the federal flow through tax deduction.

Insider Participation: Two Company insiders participated in the Private Placement and subscribed for a total of 1,666,733 FT Units. The participation by such insiders is a "related-party transaction" within the meaning of Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Company has relied on exemptions from the formal valuation and minority shareholder approval requirements of MI 61-101 contained in sections 5.5(a) and 5.7(1)(a) of MI 61-101 in respect of related party participation in the placement as neither the fair market value (as determined under MI 61-101) of the subject matter of, nor the fair market value of the consideration for, the transaction, insofar as it involved the related parties, exceeded 25% of the Company's market capitalization (as determined under MI 61-101).

This news release does not constitute an offer to sell or a solicitation of an offer to sell any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

About SLAM Exploration Ltd: SLAM Exploration Ltd. is a public resource company with a large portfolio of mineral claim holdings in the mineral-rich province of New Brunswick. The Company recently completed 3 diamond drill holes on the Goodwin copper nickel project in the BMC of New Brunswick. Highlights include a 60.60 meter core interval grading 1.17% copper equivalent in hole GW24-03, a 64.90 meter core interval grading 2.14% copper equivalent in hole GW24-02 and a 35 meter core interval grading 1.36% copper equivalent in hole GW24-01. Based on the drilling intercepts, the Company expanded the Goodwin Project which now comprises 194 units covering 4,239 hectares.

Since SLAM discovered the Maisie zone, the Company has discovered multiple gold veins on its wholly owned Menneval gold project. Gold bearing core intervals include 162.5 g/t gold over 0.2 m and 56.90 g/t gold over 0.5 m (news releases December 13, 2021 and November 22, 2022). The Company reported quartz float grading up to 39.2 g/t gold on its Jake Lee project in the vicinity of the Clarence Stream gold deposit where Galway Metals Inc. is working on a 2.3 M ounce gold deposit in southern New Brunswick.

SLAM also owns the Mine Road copper zinc silver project adjacent to the former producing Heath Steele Mines property in the BMC. Successful diamond drill holes at Mine Road by previous workers include IL2014-003 with a 9-meter core interval grading 14.51% zinc, 5.86% lead, 0.67% copper and 139.9 g/t silver on the volcanogenic massive sulphide Railroad zone at Mine Road. (Doe Run Canadian Exploration ULC; 2015, New Brunswick Assessment Files, Report of Work 477877), The Railroad zone is 7,000 m east of the 20 million tonne former producing Heath Steele B Zone.

The Company is a project generator and has received significant cash and share payments over the last 9 months as follows; \$150,000 cash and 50,000 shares from S2 Minerals Inc. (STWO) on December 19, 2023 pursuant to the Reserve Creek gold agreement; 534,000 shares and 333,000 warrants (exercisable at \$0.01) issued by Nine Mile Metals Inc. (NINE) on March 01, 2024 pursuant to the Wedge project agreement and \$25,000 cash plus 2,500,000 shares of [Lode Gold Resources Inc.](#) (LOD) pursuant to the Ramsay gold agreement. The Company holds NSR royalties and expects additional cash and share payments on the Wedge copper zinc project and on the Ramsay, Reserve Creek and Opik eigen gold projects.
