

Golden Lake Exploration Inc. Commences Drilling On Its Jewel Ridge Property In The Battle Mountain-Eureka Gold Belt, Eureka County

30.09.2024 | [ACCESS Newswire](#)

[Golden Lake Exploration Inc.](#) (CSE:GLM) (OTCQB:GOLXF) ("Golden Lake" or the "Company") is pleased to announce that it has commenced drilling on its flagship Jewel Ridge property (the "Property"), located in the prolific Battle Mountain-Eureka gold trend of Nevada.

The Property is well-located proximal to infrastructure and is immediately adjacent to successful, high-profile exploration programs currently being undertaken by [North Peak Resources Ltd.](#) & [i-80 Gold Corp.](#) (IAU.TO), on their neighboring Prospect Mountain and Ruby Hill properties, respectively.

Drill Program

HD Drilling Services, based out of Winnemucca, Nevada, has been retained by the Company to complete the 1,700-meter drill program. The program will consist of 4 to 5 high-priority drill targets and is anticipated to take 2 to 3 weeks to complete.

These high-priority drill targets include Induced Polarization (IP) anomalies generated from 2024 surveys situated within favorable geological & structural settings. Such settings host both Carlin-type disseminated gold deposits and carbonate replacement deposits, which are prominent in the immediate area of the South Eureka Gold Belt, where the Jewel Ridge property is located. Other targets include historic mines yielding high precious and base-metal assays, largely exploited at shallow depth that have seen no historic drilling.

Full details of the drill targets can be found on the Golden Lake website at www.goldenlakex.com. Drill results will be released as they become available.
