Kapa Gold is set to enhance the development of its Blackhawk Mine project through a comprehensive review and integration of both existing and newly discovered historical data.

Vancouver, October 10, 2024 - [KAPA Gold Inc.](#) (TSXV: KAPA) ("Kapa" or the "Company") announces a pivotal step in the ongoing evaluation of its Blackhawk Mine project. The Company is conducting a thorough review of historical data and incorporating recently uncovered records. The goal is to leverage this data by feeding it into 3D modeling software, which will enable the design of a precise and efficient drilling plan to certify the project's resources.

This approach ensures that only qualified data is utilized in the modeling process, marking a critical phase in advancing Blackhawk Mine. Kapa Gold's comprehensive efforts aim to optimize exploration outcomes.

"We are excited about the potential this data presents," said David Paxton, CEO of Kapa Gold. "With a deeper understanding of the historical information, combined with modern 3D modeling techniques, we are positioning ourselves to make informed decisions that will pave the way for the successful development of Blackhawk Mine. This initiative not only brings us one step closer to unlocking the full potential of this asset, but it also adds significant value to our shareholders by strengthening the overall project outlook."

The Company's ongoing commitment to establishing a compliant resource and a viable mine is underscored by this strategic initiative, which will provide the necessary framework for further exploration and project expansion.
